It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, DBW shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to adhere to any provisions of this Agreement.
- b. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, DBW shall have the option to either cancel this Agreement with no liability occurring to DBW or to offer an agreement amendment to Grantee to reflect

the reduced amount.

28. INDEMNIFICATION

DPR shall not be answerable or accountable in any manner for, any loss or expense by reason of any damage or injury to person or property arising out of or related in any way to activities carried out by Grantee, its agents, officers, contractors, subcontractors and/or employees.

29. FUNDS ASSIST

The Funds Assist process enables grantees with unused funds to assist other participating SAVE agencies in need. For up to six (6) months prior to the expiration date of the grant, Funds Assistant is voluntary. Thereafter, at DBW's <u>discretion</u>, <u>participation shall be mandatory for grantees with anticipated remaining balances. Failure to participate shall negatively affect grantee's score on future grant applications for a period of up to three (3) years.</u>

The Funds Assist process works as follows:

- a. DBW will email all grantees to identify if funding will go unused or if all funding is needed. Grantee shall respond with a confirmation; all funds will be utilized, if all funds will go unutilized and how much, or if funds are needed and how much. DBW will prepare grant amendments to reduce or add funds to grantees as appropriate. Grantee shall execute amendments in a timely manner.
- b. If grant amendments are not possible, DBW may require collaboration and reimbursement between agencies. Specifics for this process will be discussed with participating agencies when needed,

30. 90-DAY RETURN OF GRANT DOCUMENTS TO DBW

Grant agreements issued to the awarded agency must be completed and returned within 90 days of the date of issuance according to the instructions issued by DBW with the grant agreement. If extenuating circumstances prevent the ability of the agency to meet this deadline, approval from DBW must be obtained in writing. DBW retains the right to determine approval or denial of extensions.

31. ANTI-CORRUPTION

Grantees are required to report to DBW any written, suggested, or verbally implied cases whereby a contractor, subcontractor or other service provider increases their fee(s) due to the existence or balance of a SAVE grant in order to increase their fee(s). Such service providers may be investigated for price gouging. If investigated, a two-year history of charges applied to work of all known SAVE grant work by that contractor will be required by DBW for review.

32. AQUATIVE INVASIVE SPECIES

Grantees are required to ensure that they and all their sub-contractors take all necessary precautions to prevent the spread of aquatic invasive species when removing and transporting

vessels and other marine debris. At minimum, precautions will include draining all water and ensuring that material is dry prior to transporting from the water to a land-based location. Guidelines for preventing the spread of aquatic invasive species can be found at: dbw.parks.ca.gov/mussels.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act's certification requirements of bidders and proposers.

7. Did your agency have a plan to increase the number of surrendered vessels accepted over the last calendar year? If so, what was the plan and what were the results? Additionally, what plans does your agency have to increase the number of surrendered vessels you accept this year?

Outreach for the Vessel Turn-In Program (VTIP) will continue to be discussed at community meetings and with Home Owners Associations. Articles will continue to be placed in the Alameda Journal, which is a local Alameda newspaper, as well as postings on the Alameda Police Departments social media pages. There will also be information and links placed on the Alameda Police Department web page. Personal connections with all Harbor Masters in Alameda will be critical.

The target audience benefitting from this grant program is the general public, marina patrons, and residents of waterfront homes. The City of Alameda continues to grow its waterfront living with most recently adding the Bohol Circle Immigrant Park within the Alameda Landing community, Launch apartment homes which front the estuary, and Bay 37 homes which also front the estuary along with docks for launching padlle boats and boards. The City of Alameda offers multiple access points to the Oakland Estuary, San Leandro Channel, and the San Francisco Bay. Further, the Bay West

Group, is continuing to develop a master plan with the City of Alameda which will change the zoning of the Alameda Marina property to a mix-use zone for the purpose of adding residential, office, and retail to the site. Upon completion of the project, it will allow further access to the Oakland Estuary to the general public.

There are twelve marinas surrounding the main island of Alameda. Within those marinas are hundres of vessels which include live-aboard residents. A clean and safe waterway is essential to the quality of life to these individuals. Derelict vessels attract individuals that may be involved in crime. The benefit of this grant may most benefit these individuals as issues on the water are part of everyday life for them.

There are also multiple stretches of residential property bordering waterways. Many of these homes have private docks and enjoy the splendors of the access to the water. Marine debris, derelict/abandoned vessels, etc. is a constant hazard for these residential water participants and those items also create blight which has an effect on property value.

8. How often does your agency coordinate with local boating groups or marinas to inform them of the surrendered vessel program? Describe activities and identify groups/marinas contacted in the last calendar year. (Answer only if you selected 'Yes' to Q 5.)

The Alameda Police Department Marine Patrol Unit reaches out to the boating and marina communities monthly, educating them about the vessel turn-in program. Constant telephone and email contact is maintained with all the Harbor Masters of Fortman Marina, Oakland Yacht Club, Alameda Marina, Safe Harbor Ballena Isle, Grand Marina, Mariner Square Drystack, Barnhill Marina, Encinal Yacht Club, Aeolian Yacht Club, and Marina Village Yacht Harbor.

9.	Does your agency accept surrendered vessels from boaters
	If so, how many surrendered vessels have you received in the last 5 calendar year?
	If not, identify why?
10.	Describe how your agency monitors abandoned vessel activity in your jurisdiction. Select all that apply.
	Routine patrol of jurisdiction
	Visit marinas/dockwalks
	Direct contact with boat owners
	Check vessel registration
	Check seaworthiness (listing, occupancy, trash, bilge running, operable lights)
	Abandoned vessel mapping and tracking
	Multi-agency coordination
	□ Utilize NASA data
	Number of methods selected to monitor abandoned vessel activity 6

 Describe additional methodologies, if any, (besides participation in SAVE) your agency uses to prevent abandoned vessels within

Its jurisdiction?

The Marine Patrol Unit has partnered with the marinas in Alameda, Oakland Police Department, and the USCG to identify potential problem vessels before Incidents occur. With routine patrols, checks of vessel registrations and sea worthiness, and issuing citations when needed and appropriate.

Objective 2: Control

- 12. Describe methodologies, if any, your agency has implemented to control and prevent abandoned vessels from entering its jurisdiction from other areas.
- 13. Does your agency collaborate with neighboring SAVE grantees that manage abandoned and surrendered vessels?

If yes, list agencies and describe collaboration.

The Alameda Police Department colaborates with the Oakland Police Department on abandoned and surrendered vessels. In 2024 the Alameda Police Department disposed of five abandoned vessels for the Oakland Police Department, and in 2025 we have removed 2 sunken vessels for the Oakland Police department with the partnership of Parker Dive Service and the Jack London Aquatic Center.

14. Does your agency have any special circumstances and/or conditions that contribute to abandoned vessels in your jurisdiction? Explain circumstances/conditions.

Boats are often times sold by Harbor Masters at giveaway prices due to tenants not paying slip fees. These boats are often times being purchased by non-boaters who are attempting to live on them within the Oakland/Alameda Estuary. When they are discovered to be in non-livable condition, the boats are being abandoned or sunken within the estuary. The un-housed population within the cities of Alameda and Oakland are contributing to the higher number of abandoned/derelict vessels population within the estuary.

Objective 5: SNHAP

Per HNC 525, when evaluating an application DBW shall give greater weight to applicants who have an existing SNHAP.

See attached plan.

15. Does your agency have a Submerged Navigational Hazard Abatement Plan
(SNHAP)?

Yes

No
(SNHAP)?

If Yes, attach copy.

Date: 09/18/2025

- 16. Summarize the detailed process in your SNHAP for the abatement of non-vessel related navigational hazards and commercial vessels.

 Identify the SNHAP's funding source for the control/abatement of non-vessel related water hazards, hazardous floating debris (such as logs), submerged objects and abandoned piers and pilings

During our normal patrol days, we routinely remove debris from the waterway. If the debris is larger than we can handle, we call in the city public works department to remove the debris. We also routinely use our contracted tow company to remove and dispose of small boats and debris at the county dumps.

Objective 3: Cost Effectiveness

Has your agency been involved in abatement activities during the past 3 calendar (*Yes (*No years?

If yes, provide the average cost to remove and destroy vessels in the chart below:
