EXOTIC METALS

Materials

In addition to the materials featured in our line, Garland offers a variety of steel and mill finished aluminum gauges, Galvalume® with clear acrylic coating, stainless steel, and exotic metals such as zinc and titanium.

Textures

Garland's mechanical textures, such as embossing, striations and ribs, accommodate a variety of aesthetic and structural requirements.

Our exclusive texture finish is available for stainless steel and zinc, features a fine surface texture that reduces glare, minimizes the appearance of finger prints, and balances tonal variations.

Texture (Stainless Steel)

GARLAND ZINC LINE

In an effort to respond to the increasing popularity of zinc and the growing demand for sustainable design, Garland provides a high-quality domestic zinc option.

Zinc: Black

Zinc: Gray

- Notice:
- The color chips on this printed color selector are matched as closely as possible to the paint colors available, but may vary slightly from the finished product. Please contact your local representative for metal color samples.
 - SR, E & SRI measurements are available upon request.
 - All colors shown contain no more than .06 percent lead.
