Subject: [EXTERNAL] Pass Make Polluters Pay Resolution
Date: Tuesday, October 7, 2025 4:06:15 PM

Hello! I'm an Alameda resident who cares deeply about democracy and climate. I want you, please, to vote YES on the resolution to pass the Climate Superfund Act. It's past time for the climate destructive companies to pay for at least some of the climate chaos they have created (really for decades now). I support the young people who are showing up at City Hall tonight in support of this resolution and bill. It is their future climate we're trying to help. Please do the right thing here!

Thank you,

Ann Walker
