Subject: Support for Site A Retail/Commercial plan

Dear Mayor Spencer and Members of the City Council,

Alameda is known for its character and uniqueness. This is something that should be a part of any development plan for Alameda Point. That's why I am writing to support the commercial/retail plans for Site A.

The businesses this plan seeks to attract are artisan and entrepreneurial ones that blend commerce and creativity. They are businesses that can adaptively reuse the existing Navy buildings. They are the types of vibrant businesses that support the character and uniqueness of Alameda.

The mixed-use plans for Site A support new (and existing) businesses, job creation and economic benefits by including housing, amenities and transportation as part of the overall plan.

Job creation, economic vitality and amenities that all Alamedans can enjoy are things that have been talked about for years in our community. I am glad to finally see this talk move towards viable, doable plans.

Sincerely,
Jim and Vicki Sedlack
