# Staff and Community Engagement

# Strategic Plan Adopted: November 21, 2023

**CITY OF ALAMEDA**  
**2023 STRATEGIC PLAN**  
Fiscal Years 2023 - 2026

**7 ABOUT THE PLAN** Strategic Plan 2023

## STRATEGIC PRIORITIES

► **What is strategic?**

In addition to providing essential operational services, the City needs to plan ahead to create a better future for all Alamedans. A strategic plan helps the City do this by prioritizing meaningful efforts toward longer-term, big picture goals, in addition to continuing to provide core operational services. In this way, the initiatives in the Strategic Plan are like the visible tip of an iceberg, while the core services are the much larger, but less visible mass below the water line.

**9 ABOUT THE PLAN** Strategic Plan 2023

## STRATEGIC PRIORITIES

**Enhance Community Safety & Services**  
Expand and maintain city services that support community wellbeing and quality of life, including libraries and parks. Invest in public safety staff and resources, including crime prevention, fire infrastructure, disaster preparedness, legal protections, and mental health services.

**Build Resilience to Climate Change & Water Level Rise**  
Reduce greenhouse gas emissions and become more resilient and adaptive to climate change through equitable efforts in building decarbonization, solar adoption, urban greening, flood protections, and composting.

**Strategic Priorities**

Essential Services

**Strategic Priorities**

**Invest in Alameda's Transportation, Infrastructure, & Economy**  
Improve Alameda's bicycle, pedestrian, transit, and car share safety, reliability, sustainability and accessibility. Restore historic buildings, rehabilitate utilities and support local businesses and workforce development.

**House All Alamedans & End Homelessness**  
Address challenges and support unhoused or housing insecure Alamedans through affordable housing production, equitable housing practices, and comprehensive housing and supportive services.

**Responsible, Equitable & Inclusive Governance**  
Engage the community and ensure equitable distribution of public resources. Promote professional development, employee engagement and succession planning, and communication and resident engagement.

**5**

► **What is a Vision Statement?**

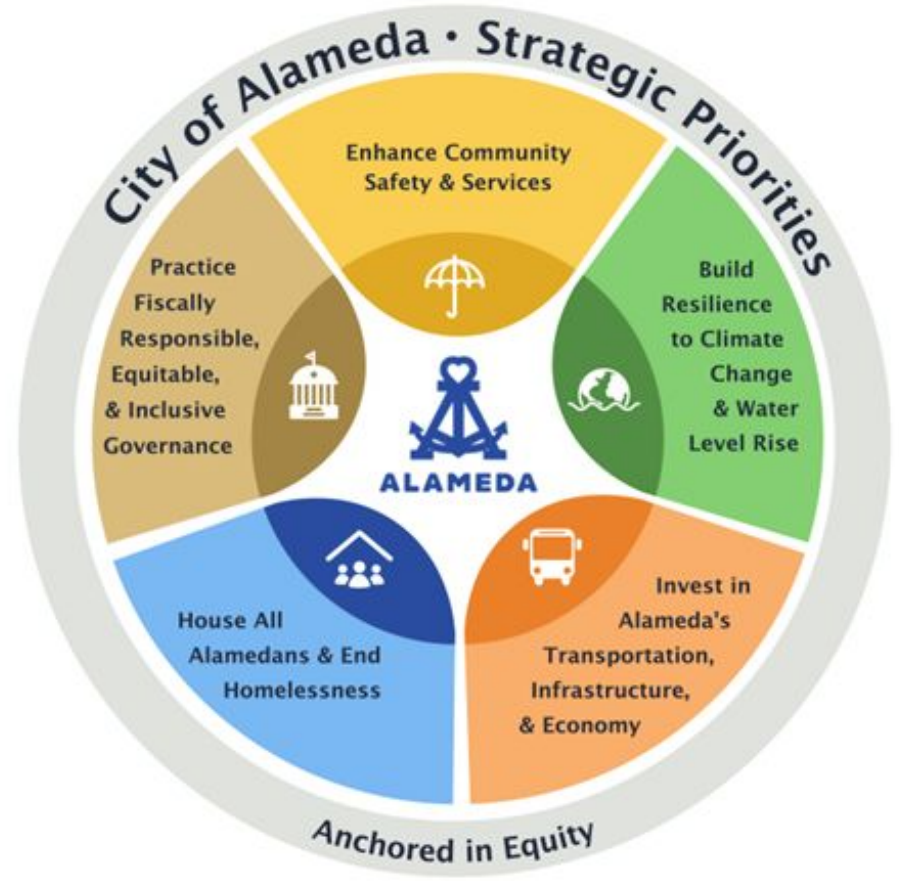

The vision statement captures a clear, compelling picture of what makes our City unique, and is useful in finding areas of alignment among the community so we can all work together to achieve a better future. The strategic priorities emerge from the vision.

► **What are Strategic Priorities?**

Strategic priorities represent the top areas of focus to achieve the vision. The City must focus its efforts and make difficult decisions on what to prioritize, while addressing the ongoing needs of the community. The City Council agreed to five priority areas to help inform that prioritization.

## Vision & Priorities

Alameda is an inclusive and connected community where everyone is welcome and supported with robust and sustainable city services. Residents and visitors enjoy access to safe, architecturally varied neighborhoods, vibrant commercial centers, and beautiful outdoor spaces. We prioritize housing options for all, and ensure residents' access to safe, climate-friendly, transportation options. The City is resilient to climate change and is prepared for natural disasters. Alameda government is fiscally responsible, invested in staff, transparent in decision-making, and committed to equity.

# Process

## Meeting Process Overview

1. Share the City Council **survey results**
2. **Review and discuss** project lists for each priority area
  - Staff is available to answer questions, if needed
3. Share your **top priorities** (dot-vote) on the strategic priority posters

## Meeting Agreements

- ~ 2 minutes per Council Member per section
- Avoid rehashing comments already shared in the survey.
- If you want to +1 a comment by a fellow council member, you can **give a thumbs up** during their comment period.
- If you are in agreement or don't have comments to add, you can **take a pass** instead of using the time to restate alignment.
- **Stay curious** and **respect differences** of opinion

**CivicMakers** will serve as neutral facilitators to keep us on time and on topic.
