Dear Planning Board Members,

I am writing to express my support for the proposed Extra Space Storage facility at 2390 Mariner Square Drive near the current Extended Stay America hotel.

The proposed development cleans up the blighted site with an aesthetic building that is more akin to a typical commercial / retail development, which will nicely complement the surrounding architecture. The proposed project will not only minimally impact the area's traffic and not disrupt any of the existing uses near the project's site, but the developers plan on making landscape and public improvements along Mariner Square Drive and Marina Village Parkway.

Please vote on March 9th in favor of improving this area and providing climate- controlled self-storage in Alameda's self-storage deficient community.

Thank you,

NANCY McPeak

I am writing to comment on the proposal for a storage facility at 2390 Mariner Square Drive. I am a resident of Barnhill Marina. The concept for the facility is OK but I think it is too large, specifically I'd like to see the height restricted to 4 stories, not 6. The project as proposed will be out of scale with the surrounding buildings and set a new, unwelcome standard for building size in the area.

It may be too late to make this kind of suggestion but I cannot support the project as proposed.

Thank you,
Barbara Weiss
