

Exhibit 4 Item 4B  
Historical Advisory Board Meeting  
February 5, 2026

DATE: January 21, 2026  
TO: Historical Advisory Board (Attn: Gail Payne)  
FROM: David Parisi, PE, TE; Maddie David, PE; Parametrix  
SUBJECT: Lincoln Avenue Historical Street Lights  
PROJECT NUMBER: C65700  
PROJECT NAME: Lincoln Avenue / Marshall Way / Pacific Avenue Corridor Safety Improvement Project

The construction of the Lincoln Avenue / Marshall Way / Pacific Avenue Corridor Safety Improvement project will impact City of Alameda historical street lights. This memorandum provides a summary of the historical street light impacts along the corridor. Figure A shows an overview of the impacted street light locations. The historical lighting styles are referenced from the "Alameda Historical Monument Nomination Report, Rev. October 1987." This memorandum will assist in the evaluation for the City of Alameda Historical Advisory Board to determine which street light locations will need to be replaced with a new flute pole.

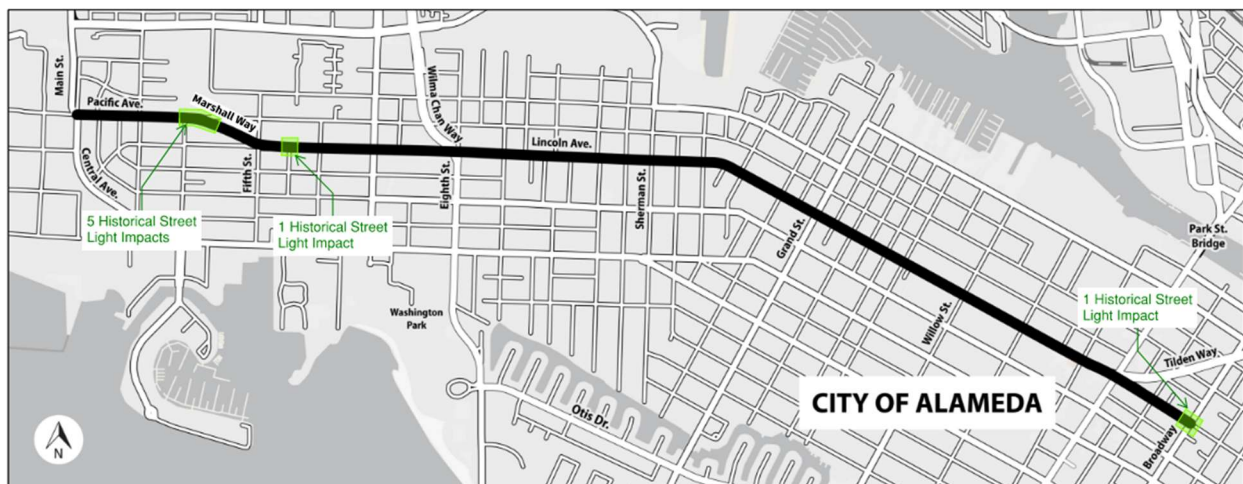

Figure A: Historical street light impact locations.

### Location 1

Traveling west to east, the first historical street light impact is a 16-fluted pendant light on the southwest corner of Pacific Avenue and 4<sup>th</sup> Street. The pole will be relocated approximately 7 feet southeast to avoid inference with a proposed ADA curb ramp.

Figure B: Existing historical street light at Location 1 (Source: Google Maps).

### Location 2

The second historical street light impact is a 16-fluted pendant light at the Academy of Alameda frontage. The pole will be relocated approximately 5 feet east due to sidewalk re-construction.

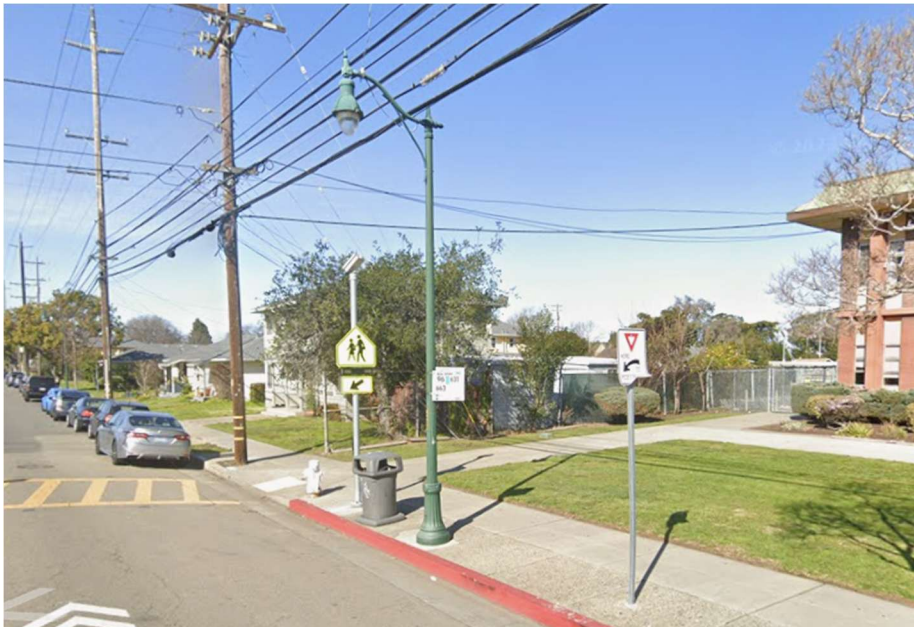

Figure C: Existing historical street light at Location 2 (Source: Google Maps).

### Location 3

The third historical street light impact is an octofluted pendant light at Academy of Alameda frontage. The pole will be relocated approximately 6 feet east due to sidewalk re-construction.

Figure D: Existing historical street light at Location 3 (Source: Google Maps).

#### Location 4

The fourth historical street light impact is an octofluted pendant light in front of 425 Pacific Avenue. The pole will be relocated approximately 84 feet southeast on the opposite side of the street, to avoid interference with the proposed cul-de-sac.

Figure E: Existing historical street light at Location 4 (Source: Google Maps).

**Location 5**

The fifth historical street light impact is a 16-fluted double pendant light at the corner of Pacific Avenue and Marshall Way. The pole will be relocated approximately 14 feet southwest to avoid interference with the proposed cul-de-sac.

Figure F: Existing historical street light at Location 5 (Source: Google Maps).

**Location 6**

The sixth historical street light impact is a 16-fluted pendant light location at the intersection of Lincoln Avenue and Linden on north side of road. The pole will be relocated approximately 3 feet northeast of its existing location to avoid inference with a proposed culvert and sidewalk reconstruction.

Figure G: Existing historical street light at Location 6 (Source: Google Maps).

### Location 7

The last historical street light impact is an octofluted pendant light located at the northwest corner of Lincoln Avenue and Broadway. The pole will be relocated approximately 4 feet northwest due to sidewalk re-construction.
