

MCKINLEY PARK

Playground Repair and Rebuild Project

Presented by: Dave Leimsieder, Acting ARPD Director

Introduction & Background

- In response to the total loss of the Playground Structure at McKinley Park, ARPD staff began exploring pre-fabricated design options for replacement
- ARPD has identified several pre-fabricated design options from a trusted vendor that designs and builds playground equipment.
- ARPD staff shared four proposed design options with the public at a community meeting scheduled on Thursday, May 18th at McKinley Park.

OPTION A

Alameda Recreation and Park Department—510-747-7529—arpd@alamedaca.gov
McKINLEY PARK PLAY STRUCTURE REPLACEMENT

OPTION D

OPTION D

Overall Response

- Parents and Children in attendance had an opportunity to provide input and vote on all four designs.
 - Option A: 39
 - Option B: 10
 - Option C: 25
 - Option D: 27
- Some families have expressed over email a desire for a full design process with more organic materials being used.

Fiscal Impact

- The cost of this project is estimated to be roughly **\$100,000.00** including demolition of damaged equipment
- Staff does not anticipate the cost of this project to significantly delay other playground projects that are currently prioritized for replacement.
- Staff may need to seek additional funding from council to complete other playground projects.

Alternatives & Other Considerations

- Staff can go back and start the process over and conduct a full design process.
- Delaying this project would push back any construction by a year.
- By moving forward, we would likely be able to see the Playground installed and ready for use by the end of the calendar year.

Staff Recommendation

ARPD staff requests that the Recreation and Park Commission move to recommend that McKinley Park Playground repairs and replacement be prioritized and for staff to move forward with implementing this replacement project.
