The City welcomes speakers providing public comment, but please be advised this is a limited public forum. As such, speakers must stay on topic if speaking to a particular agenda item, and if speaking during non-agenda public comment, they must address matters within the subject matter jurisdiction of the City. 4. COMMISSIONER COMMUNICATION

- Commissioner Burney: Asked what the process and requirements are for a teen to participate in the Teens Teaching Technology program. Director Long said teens can register on the ARPD website and basic technological knowledge is sufficient. Asked what a citizen should do if they see a boat docked overnight at a public dock. Director Long suggested to report to the Alameda Police Department non-emergency line. Commissioner Burney inquired about opportunities to interact with new City Council members for next year. Director Long encouraged the commission to reach out to the City Manager's office to set up one-on-one meetings and get an understanding of the new City Council members' priorities and advocacy for the community.
- Chair Radez: Recognized and thanked Commissioner Alexander for her service as the previous Chair. Encouraged the community to go out and appreciate our parks and enjoy the natural beauty around us, particularly by the waterfront such as Seaplane Lagoon Promenade. Thanked Commissioner Alexander and Director Long for their suggestion to visit the Mastick Thrift Shop. Commented on it being a delightful place, with engaging, friendly staff and unique items. Chair

Radez asked what what would be the appropriate way for the commission to stay apprised of longer term projects and ongoing developments such as De-Pave Park, Estuary Park, and the Aquatic Center. Director Long said he could incorporate status updates into Staff Communications and his Director Reports.

- Commissioner Robbins: Took the Oakland Alameda Water Shuttle, played pickleball at Lincoln Park and FootGolf at Corica Park Golf Course. Highly recommended FootGolf for as a fun sport for families and groups. Mentioned that teen volunteer hours with ARPD programs can be applied towards Alameda Unified School District community service hours.
- Vice Chair Swartz: Stopped by the Annual Holiday Boutique, thanked everyone who attended and supported the event. Pleased to see the newly painted stripes at the O'Club parking lot. Noticed that the City applied for a grant for De-Pave Park and excited to see the design process move forward. Visited Encinal Swim Center for lap swim 12-16 times in the past month.
- Commissioner Alexander: Attended the Teen Haunted House at South Shore Center and the Pumpkin Pool Party at Encinal Swim Center. Enjoyed the Annual Holiday Boutique at the O'Club and acknowledged Park Manager Matt Nowlen and staff for the beautiful healthy garden. Asked what is the best way to ensure donations to go towards ARPD scholarship funds and designated programs. Director Long replied that donating to the Friends of the Parks Foundation is the best mechanism. Observed Leydecker Pickleball Courts are often busy and full.

6. REGULAR AGENDA ITEMS

6-A Approve and make a recommendation to City Council for the Recreation and Parks Department 2025 Annual User Fee Schedule. (Recreation and Parks 10051400)

ARPD Director Justin Long presented on the 2025 Recreation and Park User Fee Schedule, Background, ARPD Cost Recovery Model, Revised Fees for 2025, 5-15% Overall Program Increases and New Fees for 2025.

Public Comments

- Speaker Anne Delp: Shared that she is from Alameda Aquatic Masters. Thanked the Recreation and Park Commission and ARPD for willingness to adjust fees over time so that the increases are not immediately drastic.

Commissioner Comments

- Commissioner Burney: Asked if the City makes a profit from the fees and why we do not match other cities' fees. Director Long explained that it is a cost recovery component and about 60%

is recovered from what is spent on a program and 40% is subsidized. He explained that our cost comparison has a different starting point than other cities. The increases are incremental because we have to be respectful of our population, understand the impact on our user groups, and ensure that programs remain accessible and no one in the community is left out. Commissioner Burney questioned the non-residents fees being low compared to other cities but was generally aligned with the proposal.

- Chair Radez: Asked where Director Long sees future growth, demand, and increased program activity. Director Long commented on the popularity of the Recreation Afterschool Program (RAP), World of Wonder (WOW), and Tiny Tots programs and foresees growth in the TK program as demand and capacity increases. He mentioned growth in summer camp programs, field, facility, and picnic rentals, therapeutics, and Mastick Senior Center programs. Chair Radez asked where Director Long sees the department's future expenses, considering inflation and other factors, driving a cost recovery analysis. Director Long stated that wage imbalance will be a component as part-time staff reach a salary point similar to entry level full-time staff. He remarked that expenses will increase as the cost of materials, goods and staff equipment go up, and noted the City's zero emission plan is converting to all electric such as vehicles, and devices used for basic operations including leaf blowers, weed eaters, lawn mowers, and trimmers. Director Long stated the importance of discussing capital versus operating and how they impact each other when doing the budget. Chair Radez commented that more could be charged, but the net difference contributes to the quality of life in Alameda and ensures that programs remain accessible to the general public. He perceived the proposed fees as reasonable and agreed with the commission to approve.
- Commissioner Robbins: Thanked Director Long for the staff report. Stated that he is a proponent of raising user fees. Said that non-resident tennis court fees should be higher as some organizations monopolize the courts particularly on the weekends. Commissioner Robbins understands that the fees are cost recovery but commented that Alameda residents need to accept paying more for our parks and be mindful of what we cherish on our island.
- Vice Chair Swartz: Asked if the user fee schedule changes apply to pool time that has already been allocated. Director Long responded that the new pricing will take place after the current allocation. Vice Chair Swartz asked who currently rents the pool outside of AUSD and ARPD programs. Director Long listed the Alameda Gators, Neptunes, Alameda Masters and a new Alameda Masters non-profit group based in Alameda. Asked if prices will be the same for all Alameda pools. Director Long replied yes, all the prices will be consistent. Vice Chair Swartz echoed the sentiment that non-residents fees are very low, particularly in the swim comparisons. Supported moving to market rates and moving to a per lane per hour system as it will provide more user access. Requested more detail in future cost comparisons. Approved of proposed user fee schedule.
- Commissioner Alexander: Thanked Director Long for the staff report. Asked if TK fees could be rounded up from \$7.13/\$8.40 hour. Director Long explained that the fees are calculated and divided based on the overall program charge, so the fees reflect what the cost is per hour. Commissioner Alexander asked about user groups outreach and how the proposed fee schedule was communicated. Director Long replied that emails were sent, inviting all user groups and organizers to a Zoom meeting. The proposed User Fee Schedule for 2025, with highlighted

changes, was included as an attachment to those emails. Commissioner Alexander agreed with Commissioner Robbins that the user fees are minimal compared to other cities but also understands that the fees need to remain equitable. She remarked that raising the non-resident fees would be a good place to start. She recommended the proposed user fee schedule.

MOTION

Commissioner Robbins motioned to recommend that the fee schedule be approved and moved on to City Council.
