NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Alameda that the City Council finds this project categorically exempt from environmental review pursuant to CEQA Guidelines Sections 15301 - Existing Facilities, and finds that none of the exceptions to the categorical exemption apply; and

BE IT FURTHER RESOLVED, that the City Council makes the following findings relative to the Use Permit application (AMC Sections 30-21.3):

- 1. The location of the proposed use is compatible with other land uses in the general neighborhood area, and the project design and size is architecturally, aesthetically, and operationally harmonious with the community and surrounding development.** The existing gas station has operated at the site for many years. The gas station and auto repair businesses complement the nearby Morton Station neighborhood business district. The use of the property has been generally compatible with the adjacent residential uses due to carefully crafted limitations on the hours of operation and the types of services provided at the station if they are adhered to. The gas station's existing hours are Monday through Friday from 7:00 A.M. to 8:00 P.M. and Saturday from 9:00 A.M. to 4:00 P.M. The gas station's proposed hours are Monday through Friday from 6:00 A.M. to 10:00 P.M., and Saturday and Sunday from 7:00 A.M. to 8:00 p.m. No change to the operating hours for auto repair services are proposed as part of this application. The current proposed modification would maintain compatibility between the gas station and the neighborhood by not increasing the allowed hours of operation for the onsite auto
- 2. The proposed use will be served by adequate transportation and service facilities including pedestrian, bicycle, and transit facilities.** The property is located at the intersection of three streets that serve citywide circulation needs as described in the City's Street Classification Index of the General Plan, including State Highway 61, with no barriers to access. AC Transit lines 51A and O stop one block away. The project site is served by continuous existing and under construction bicycle facilities. Therefore, the proposed use is served by adequate transportation and service facilities, including pedestrian, bicycle, and transit facilities.

3. **The proposed use, if it complies with all conditions upon which approval is made contingent, will not adversely affect other property in the vicinity and will not have substantial deleterious effects on existing business districts or the local economy.** The proposed additional hours of operation and diversified product selection in the small onsite store will improve the available services to the local residents, reducing the need for people to drive greater distances through the neighborhood to access fuel and convenience items. By continuing to limit the auto repair hours of operation and other conditions of approval, the use will not adversely affect other property in the vicinity. The gas station has a difficult time competing with other gas stations in Alameda that have extended hours of operation and full convenience stores with food, beverage, alcohol and tobacco sales. Allowing additional hours of operation and the sale of packaged good and drinks while continuing to prohibit the sale of alcohol and tobacco products will help the business compete under more equitable conditions with other gas stations. Properties with gas stations that cease operations face significant challenges in finding successful new uses. By ensuring the continued viability of the business and avoiding the potential of another shuttered and blighted former gas station property, the use will continue to support the adjacent Morton Station neighborhood business district and the local economy.
4. **The proposed use relates favorably to the General Plan and the purpose of the Alameda Point Zoning District.** Approving this use is consistent with Alameda General Plan Land Use Element goals and policies. Land Use Element action LU-5a calls for “Permit(ing) continuation and re-investment in existing, small, legal nonconforming neighborhood-serving commercial uses in commercial buildings that predate the zoning code.” Approving the use permit modification will support Goal 2 of the Land Use Element to “strengthen and diversify the Alameda business community and economy.”

BE IT FURTHER RESOLVED, that the City Council uphold the Planning Board decision to approve Use Permit Amendment application PLN24-0094 to allow additional operating hours for the existing legal non-conforming gas station located at 1310 Central Avenue, as well as sale of packaged foods and non-alcoholic beverages in the existing store.
