Per Ordinance 1928, as referenced by Resolution 12191 and Resolution 14027, City fees are subject to administrative adjustments not greater than 5% annually. The February 2025 CPI is 2.7%. Therefore, except where noted, all fees have been administratively revised for a CPI rate increase of 2.7% allowed by ordinance.

Planning, Building, and Transportation fees were increased as a result of a fee study conducted on May 21, 2024. The fee increases that were part of this fee study will be effective August 1, 2024.

Fire Department fees that currently do not achieve a 100% cost recovery were increased by 9.12% (excluding EMS fees and new construction fees). The 9.12% includes the allowed 2.7% Consumer Price Index (CPI) increase and a 6.42% cost recovery catch-up increase.

The CA Construction Cost Index (CCCI) increase rate in April 2025 was calculated at 5.1%.

The Development Impact Fees (DIF) were adjusted by the calculated Construction Cost Index in April 2025 by 5%.

Affordable Housing Fees for Use Types were increased by the Construction Cost Index in April 2025 by 5%.
