Non-Housing Community Development Public Services  
Recommendations

# SSHRB Role

---

As a result of a joint Council/SSHRB work session in 1997, the SSHRB is tasked with 3 activities that pertain to the CDBG program:

- 1) Assess and provide input regarding the community's social service and human relations needs. (February 2021)
- 2) Review staff's CDBG Public Service funding recommendations to determine if the recommended activities are consistent with the priority needs and if the funding levels are reasonable given the amount of funding available. (Tonight)
- 3) Report the recommended allocations to City Council.  
(Tentatively planned for May 4, 2021)

# Public Service Cap & Funding Availability

---

Public Service funding is capped at 15% of the following:

- Current year's Entitlement Allocation
- Program Income received in the previous fiscal year

Program income is generated primarily from the repayment of residential rehabilitation loans.

Since program income continues to be received through June 30, staff must estimate how much program income is expected to be received before the end of the fiscal year, and the annual Action Plan will include this estimate.
