RECITALS

A. The City is a municipal corporation duly organized and validly existing under the laws of the State of California with the power to carry on its business as it is now being conducted under the statutes of the State of California and the Charter of the City.

B. The City is in need of the following services: Provider was selected to help pick the technical consultant, to collaborate with key stakeholders, and to conduct community engagement so as to facilitate an inclusive and equitable planning process for the following three adaptation projects: Long-term Adaptation Plan, Oakland-Alameda Estuary Adaptation Project and Bay Farm Island Adaptation Project. City staff issued an Adaptation Community Partner request for proposals (RFP) on February 27, 2023. After a submittal period of 31 days, the City received four timely submitted proposals on March 30, 2023 from Provider, Community Action for a Sustainable Alameda (CASA), DOER Marine Operations and Wild Oyster Project. The Selection Committee reviewed the proposals and chose the two Community Partner teams that best meet the needs of the three adaptation projects: Provider and CASA. The Selection Committee consisted of six staff representing the City of Alameda (two), City of Oakland, East Bay Regional Park District, Caltrans and the Port of Oakland.

C. Provider is specially trained, experienced and competent to perform the special services which will be required by this Agreement.

D. Whereas, the City Council authorized the City Manager to execute this agreement on June 6, 2023.

E. The City and Provider desire to enter into an agreement for Adaptation Project Community Partner, upon the terms and conditions herein.

Provider agrees to do all necessary work at its own cost and expense, to furnish all labor, tools, equipment, materials, except as otherwise specified, and to do all necessary work included in Exhibit A as requested. Provider acknowledges that the work plan included in Exhibit A is tentative and does not commit the City to request Provider to perform all tasks included therein.

3. COMPENSATION TO PROVIDER:

a. By the 7th day of each month, Provider shall submit to the City an invoice for the total amount of work done the previous month. Pricing and accounting of charges are to be according to the fee schedule as set forth in Exhibit B and incorporated herein by this reference. 5. STANDARD OF CARE:

Provider agrees to perform all services hereunder in a manner commensurate with the prevailing standards of like professionals or service providers, as applicable, in the San Francisco Bay Area and agrees that all services shall be performed by qualified and experienced personnel who are not employed by the City.

6. INDEPENDENT PARTIES:

Provider hereby declares that Provider is engaged as an independent business and Provider agrees to perform the services as an independent contractor. The manner and means of conducting the services and tasks are under the control of Provider except to the extent they are limited by statute, rule or regulation and the express terms of this Agreement. No civil service status or other right of employment will be acquired by virtue of Provider's services. None of the benefits provided by the City to its employees, including but not limited to unemployment insurance, workers' compensation plans, vacation and sick leave, are available from the City to Provider, its employees or agents. Payments of the above items, if required, are the responsibility of Provider.

7. IMMIGRATION REFORM AND CONTROL ACT (IRCA):

Provider assumes any and all responsibility for verifying the identity and employment authorization of all of its employees performing work hereunder, pursuant to all applicable IRCA or other federal, or state rules and regulations. Provider shall indemnify, defend, and hold the City harmless from and against any loss, damage, liability, costs or expenses arising from any noncompliance of this provision by Provider.

8. NON-DISCRIMINATION:

Consistent with the City’s policy and state and federal law that harassment and discrimination are unacceptable conduct, Provider and its employees, contractors, and agents shall not harass or discriminate against any job applicant, City employee, or any other person on the basis of any kind of any statutorily (federal, state or local) protected class, including but not limited to: race, religious creed, color, national origin, ancestry, disability (both mental and physical) including HIV and AIDS, medical condition (e.g. cancer), genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, pregnancy, political affiliation, military and veteran status or legitimate union activities. 9. HOLD HARMLESS:

a. To the fullest extent permitted by law, Provider shall indemnify, defend (with counsel acceptable to the City) and hold harmless the City, its City Council, boards, commissions, officials, employees, agents and volunteers (“Indemnitees”) from and against any and all loss, damages, liability, obligations, claims, suits, judgments, costs and expenses whatsoever, including reasonable attorney’s fees and costs of litigation (“Claims”), arising from or in any manner connected to Provider’s performance of its obligations under this Agreement or out of the operations conducted by Provider even if the City is found to have been negligent. If the Claims filed against Indemnitees allege negligence, recklessness or willful misconduct on the part of Provider, Provider shall have no right of reimbursement against Indemnitees for the costs of defense even if negligence, recklessness or willful misconduct is not found on the part of Provider. Provider shall not have any obligations to indemnify Indemnitees if the loss or damage is found to have resulted solely from the negligence or the willful misconduct of the City. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

b. As to Claims for professional liability only, Provider’s obligation to defend Indemnitees (as set forth above) is limited as provided in California Civil Code Section 2782.8.

c. Provider’s obligation to indemnify, defend and hold harmless Indemnities shall expressly survive the expiration or early termination of this Agreement.

10. INSURANCE:

On or before the commencement of the terms of this Agreement, Provider shall furnish the City’s Risk Manager with certificates showing the type, amount, class of operations covered, effective dates and dates of expiration of insurance coverage in compliance with Sections 10.b. Such certificates, which do not limit Provider’s indemnification, shall also contain substantially the following statement:

“Should any of the above insurance covered by this certificate be canceled or coverage reduced before the expiration date thereof, the insurer affording coverage shall provide thirty (30) days’ advance written notice to the City of Alameda. Attention: Risk Manager.”

Provider shall maintain in force at all times during the performance of this Agreement all appropriate coverage of insurance required by this Agreement with an insurance company licensed to offer insurance business in the State of California with a current A.M. Best’s rating of no less than A:VII or Standard & Poor’s Rating (if rated) of at least BBB unless otherwise acceptable to the City. As to commercial general liability and automobile liability insurance, such insurance will provide that it constitutes primary insurance with respect to claims insured by such policy, and, except with respect to limits, that insurance applies separately to each insured against whom claim is made or suit is brought. Such insurance is not additional to or contributing with any other insurance carried by or for the benefit of the City.

c. SUBROGATION WAIVER:

Provider hereby agrees to waive rights of subrogation that any insurer of Provider may acquire from Provider by virtue of the payment of any loss. Provider agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether the City has received a waiver of subrogation endorsement from the insurer. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the City for all work performed by Provider, its employees, agents and subcontractors.

An additional insured named herein shall not be held liable for any premium, deductible portion of any loss, or expense of any nature on this policy or any extension thereof. Any other insurance held by an additional insured shall not be required to contribute anything toward any loss or expense covered by the insurance provided by this policy. Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured(s).

f. SUFFICIENCY OF INSURANCE:

The insurance limits required by the City are not represented as being sufficient to protect Provider. Provider is advised to consult Provider's insurance broker to determine adequate coverage for Provider. The coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of the coverage carried by or available to Provider; whichever is greater.

g. EXCESS OR UMBRELLA LIABILITY:

If any Excess or Umbrella Liability policies are used to meet the limits of liability required by this Agreement, then said policies shall be true "following form" of the underlying policy coverage, terms, conditions, and provisions and shall meet all of the insurance requirements stated in this Agreement, including but not limited to, the additional insured, SIR, and primary insurance requirements stated therein. No insurance policies maintained by the indemnified parties or Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until all the primary and excess liability policies carried by or available to the Provider are exhausted.

11. CONFLICT OF INTEREST:

Provider warrants that it is not a conflict of interest for Provider to perform the services required by this Agreement. Provider may be required to fill out a conflict of interest form if the services provided under this Agreement require Provider to make certain governmental decisions or serve in a staff capacity as defined in Title 2, Division 6, Section 18700 of the California Code of Regulations. Provider will disclose in writing any potential conflict of interest to the awarding agency and the City.

12. PROHIBITION AGAINST TRANSFERS:

Provider shall not assign, sublease, hypothecate, or transfer this Agreement, or any interest therein, directly or indirectly, by operation of law or otherwise, without prior written consent of the City Manager. Provider shall submit a written request for consent to transfer to the City Manager at least thirty (30) days in advance of the desired transfer. The City Manager or their designee may consent or reject such request in their sole and absolute discretion. Any attempt to do so without said consent shall be null and void, and any assignee, sublessee, hypothecate or transferee shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer. However, claims for money against the City under this Agreement may be assigned by Provider to a bank, trust company or other financial institution without prior written consent.

b. The sale, assignment, transfer or other disposition of any of the issued and outstanding capital stock, membership interest, partnership interest, or the equivalent, which shall result in changing the control of Provider, shall be construed as an assignment of this Agreement. Provider shall include the following language in their agreement with any sub-provider: "Sub-providers hired by Provider agree to be bound to Provider and the City in the same manner and to the same extent as Provider is bound to the City."

If supplemental examination or audit of the Records is necessary due to concerns raised by the City's preliminary examination or audit of records, and the City's supplemental examination or audit of the records discloses a failure to adhere to appropriate internal financial controls, or other breach of this Agreement or failure to act in good faith, then Provider shall reimburse the City for all reasonable costs and expenses associated with the supplemental examination or audit.

Notwithstanding subsections 16.a. through c. above, Provider shall establish and maintain an accounting system and records that properly accumulate and segregate incurred project costs and matching funds by line. Section 60-741, et seq.), in accordance with requirement of state or federal law. Provider shall take affirmative action to ensure that qualified applicants are employed and that employees are treated during employment without regard to race, color, religion, national origin, ancestry, sex, age, or condition of physical or mental handicap in accordance with requirements of state and federal law. Such shall include, but not be limited to, the following:

Proposed Work Plan

Exhibit A

Part A: Sub-regional Long-term Adaptation Plan Scope

1. Project Coordination and Governance

Task A1a: Attendance at Steering Committee Meetings

We see our full team as being an integral part of steering committee meetings and will look forward to participating as a full partner in this process to guide the development of all three projects.

Task A1b Co-create a sub-regional organizational structure

Work with the other Working Group members to co-create a sub-regional organizational structure to accelerate and streamline implementation of adaptation projects.

Deliverable: A PDF of a subregional structure diagram

Task A1c: Agency Coordination

With a multidisciplinary challenge like sea level rise planning and adaptation, long-term, effective solutions must be coordinated across multiple agencies. Our team will monitor and participate in all relevant public meetings from regional agencies to the local city, county, park district, water district, and other relevant agencies. We will share information, identify needs and opportunities for regional support and engagement, and share lessons learned and best practices as a pilot for the development of adaptation planning processes in other OLU's.

Task A1d: Project Kickoff

The project will launch with an initial kickoff meeting with City of Alameda staff, key working group members, and any other relevant consultants to lay out a more detailed shared plan and timeline for this effort, with the goal of building the momentum needed to ensure participation and buy-in from relevant stakeholders and set up implementation.

Task A1e: Cross Project Coordination

We value collaboration and would like to build in time for our team to connect and compare notes across tasks and projects.

2. OLU Planning and Implementation

Task A2a Co-create shared long-term adaptation vision, goals and planning principles. Working with the working group and larger project team, our team will

support the creation of shared long-term adaptation goals and planning principles.

Task A2b Review vulnerability and needs assessment

Review and provide input on the vulnerability and needs assessment developed by the Technical Consultant. The assessment will determine the range of sensitivity and exposure to the multiple hazards associated with sea level and groundwater rise, such as erosion, flooding, habitat loss, contamination, and liquefaction.

Task A2c Organizational structure

Move forward with the implementation of the adopted organizational structure and needs assessment.

3. Public and Stakeholder Outreach

Creative communications are a critical component of this effort, serving as the building blocks for the urgency and outcome-based effort that we propose. The initial efforts have created a strong foundation for communications and relationship building. Additionally, this effort communicated externally with a wide range of stakeholders through outreach meetings and sharing information. A critical component of this effort will of course be the meetings and events convened. Yet there are many stakeholders who have an interest in this process but for a variety of reasons do not have the time or ability to participate in a traditional community or committee meeting style involvement. Our team will bring a particular focus on creative communications to reach these stakeholders.

Task A3a Stakeholder outreach and communications plan

Co-develop with the Technical Consultant and other Working Group members a stakeholder outreach and engagement plan.

Deliverable: Stakeholder engagement plan

Task A3b Community Partner capacity building toolkit

Co-develop with the Technical Consultant and other Working Group members a toolkit to build Community Partner capacity to lead outreach within the San Leandro OLU, to communicate directly the impacts of sea level and groundwater rise, and to gather input on adaptation needs, priorities, and solutions.

Deliverable: community partner capacity building toolkit

Task A3c Community outreach round 1&2

Conduct community outreach with stakeholders and constituents in two rounds of outreach with the first round focusing on existing conditions/preliminary options.

Our approach is to ground ourselves in building healthy relationships with residents, honor cultural diversity, and uplift the lived experience of key stakeholders throughout the process. Our goal is to design an engagement plan that's adaptable to changes we may not foresee. We will consider a menu of strategies to reach this goal. Strategies such as focus groups, neighborhood and shoreline pop-ups, virtual engagement (social media/virtual workshops), embedded education, and street art education. Consistent materials and tracking will be used across each strategy. Utilizing interactive poster boards, augmented reality, storytelling, surveys, and other methods to engage residents. We will continue to uplift the lived experience and feedback of residents. During the second round, we will curate engagement events that allow us to receive feedback, while the community demonstrates some of the restoration and adaptation strategies they have brainstormed. Hands-on activities that can be done by all ages. Events that build interest in long-term stewardship careers at the shoreline.

Task A3d: Engagement tours/events

Greenbelt Alliance has extensive experience in outings and events that connect people to nature through learning about our natural surroundings, what makes our region special, how our communities are threatened, and what we can do to protect ourselves and others. We average 25-30 tours and outings per year and work with many different partners and volunteers to support them in organizing outings. We will bring this experience and expertise to partnering closely with local community members to provide educational and appealing experiences that will bring new attention to this effort, bring new participants, engage decision-makers and move projects forward. As this effort moves forward and the initial adaptation planning process is completed, we will focus engagement events and efforts around specific places, and look to more creative tools such as games, models, and activities that educate residents about threats and opportunities for solutions.

Task A3e Equity Strategy + Equitable Engagement Compensation Plan

The equity strategy will incorporate the outcomes-based approach of this effort, with a strong focus on bringing accurate information around funding constraints and working with community members to really understand the tradeoffs and highest priorities that will keep people safe while investing in a resilient future. The equity strategy will be built to be reviewed and revised yearly, with a focus on building deeper community connections in priority implementation areas through the parallel adaptation planning process.

Our team will work with community partners as well as city staff and advisors to finalize the partner compensation plan for year one and the outreach plan for

subsequent years focused on areas of particular interest based on the adaptation plan developed. We will ensure that funding focused on infrastructure investments includes funds for public education, oversight, and participation centering local community voices.

Task A3f Recruitment and Building Meaningful Partnerships

Building partnerships will be an ongoing part of this effort, with the committee meetings, outings, communications, and events all being opportunities for further participation, engagement, and deepening partnerships with vulnerable, frontline community organizations. Our team has the ability to build on our existing partnerships and leverage our model of coalition building to continually expand the reach of this effort.

Part B: Oakland-Alameda Estuary Adaptation Project Scope

0. Project Administration and Consultant Procurement

Task B01a: Project kickoff

The project will launch with an initial kickoff meeting with City of Alameda staff, key working group members, and any other relevant consultants to lay out a more detailed shared plan and timeline for this effort, with the goal of building the momentum needed to ensure participation and buy-in from relevant stakeholders and set up implementation.

Task B01b: Steering Committee

We see our full team as being an integral part of steering committee meetings and will look forward to participating as a full partner in this process to guide the development of all three projects.

Task B02a Consultant procurement

Serve on an RFP panel to review consultant proposals and to recommend the selection of the Technical Consultant for the Caltrans-funded Oakland-Alameda Estuary Adaptation Project.

Task B1.3: Advisory Committee

Participate in up to five Advisory Committee meetings to ensure transparency and communication at the following project stages: 1) kick-off, 2) existing conditions/preliminary alternative options, 3) preliminary concept, 4) draft concept, and 5) final concept. 1. Existing Conditions

Task B1a Site Visits

Participate in site visits of the project areas to understand the project approach, concept and constraints to be considered in the design. Potential locations within the watershed for green infrastructure, nature-based solutions, and stormwater retention/detention will be identified and reviewed. We recommend that community engagement be done as part of the existing conditions site visits so the community can inform the existing conditions.

Task B1b Existing Conditions Memorandum

Review and provide input on an existing condition memorandum to document existing conditions developed by the Technical Consultant.

2. Analysis and Public Stakeholder Outreach

Task B2a Alternative Analysis meetings

Participate in meetings to provide input on and review the alternatives analysis to be developed by the Technical Consultant.

Task B2b/c Community Engagement Around Alternative Analysis

Community Partners will engage community members, stakeholders and the advisory committee in a first round of outreach, and will present existing conditions and preliminary alternative options under consideration using materials and resources co-developed with the Technical Consultant (Task B3, Public Outreach). Develop an alternatives selection matrix that includes public input, and will refine the alternatives based on comments received from the outreach effort to provide guidance on a draft and final concept.

Deliverable: alternatives selection matrix

3. Public Outreach

Task B3a Stakeholder Outreach and engagement strategy

Co-develop a community engagement strategy using a variety of formal and informal community engagement methods to facilitate grassroots community input and to build awareness of the project.

Deliverable: Stakeholder engagement strategy

Task B3b Alternatives Selection Matrix

The Working Group/Community Partner/Technical Consultant team will develop an alternatives selection matrix that includes public input, and will refine the alternatives based on comments received from the outreach effort to provide guidance on a draft and final concept.

EPA Subaward Policy Appendix D: Subaward Agreement Template

OVERVIEW: Program Offices may provide this subaward template to recipients of EPA financial assistance that are “pass-through entities” as defined by 2 CFR 200.74 to assist them in complying with the “subaward content” requirements in 2 CFR 200.331(a). EPA does not mandate the use of this template. Pass-through entities may use their own form of subaward agreements provided the requirements of 2 CFR 200.331(a) are met. Any changes to the data elements that are required under 2 CFR 200.331(a) must be reflected in subsequent modifications to subawards. If any of the information required by 2 CFR 200.331(a) is not available, pass-through entities must provide the best information that is available to describe the Federal award and subaward.

Section I. [Title and Description of Subaward including whether the Subaward is for Research and Development]

Section II. Federal Requirements.

A. Federal Award Identification.

1. Subrecipient name--which must match registered name in the System for Award Management (SAM). If the subrecipient is not yet registered in SAM, then information about registration procedures may be found at the SAM Internet site (currently at <http://www.sam.gov>).
2. The subrecipient’s “unique entity identifier” in SAM. The unique entity identifier currently is the subrecipient’s Data Universal Numbering System (DUNS) number. DUNS numbers may be obtained without charge at <http://fedgov.dnb.com/webform>.

Note: Additional information regarding obtaining a DUNS number and registering in SAM is available in the “**General Term and Conditions**” (T&Cs), under the “**Central Contractor Registration/System for Award Management and Universal Identifier Requirements**” T&C, of the pass-through entity’s agreement with EPA.

3. Federal Award Identification Number (FAIN) The FAIN corresponds with the “Assistance ID No.” on the EPA Notice of Award.
4. EPA Award Date. This is the date the EPA Award Official signs the assistance agreement with the pass-through entity and may be found on page 1 of the EPA Notice of Award.
5. Subaward Period of Performance Start and End Date;
6. Amount of EPA Funds Obligated under the initial subaward or this particular funded amendment to the subaward.
7. Total or cumulative amount of EPA Funds Obligated to the subrecipient under the initial subaward plus any subsequent funded amendments;
8. Total Amount of the EPA Award(s) to the pass-through entity. This amount corresponds to the amounts in the “Total Budget Period Cost” and “Total Project Period Cost” boxes on page 1 of the EPA Notice of Award.

9. Federal award project description, as required to be responsive to the Federal Funding Accountability and Transparency Act (FFATA). This information may be found in the “Project Title and Description” box on page 1 of the EPA Notice of Award.

10. Information identifying EPA as the Federal awarding agency, your organization as the pass-through entity, and contact information for your awarding official for the subaward.

11. Catalog of Federal Domestic Assistance (CFDA) Number and Name for each EPA award used to support the subaward. CFDA information for the pass-through entities’ EPA award may be found on page 2 of EPA’s Notice of Award form in the second chart under “EPA Award Information”. (Note the Uniform Grant Guidance requires at 2 CFR 200.331(a)(1)(xi) that the Pass-through entities identify the dollar amount under each Federal award and the CFDA number at the time of disbursement of Federal funds to the subrecipient so it is important for pass-through entities to maintain accounting records to meet this requirement.

12. Indirect cost rate for the pass-through entity’s Federal award. This rate may be found on page 3 of the pass-through entity’s EPA Award in Table A, Object Class Category and may be the 10% de-minimis indirect cost rate described at 2 CFR 200.414(f).

B. All “flow down” requirements imposed on the subrecipient by the pass-through entity to ensure that the EPA award is used in accordance with Federal statutes, regulations and the terms of the EPA award. The subrecipient is accountable to the pass-through entity for compliance with Federal requirements. In turn, the pass-through entity is responsible to EPA for ensuring that subrecipients comply with Federal requirements.

These requirements include, among others:

1. Title VI of the Civil Rights Act and other Federal statutes and regulations prohibiting discrimination in Federal financial assistance programs, as applicable.

2. Reporting Subawards and Executive Compensation under Federal Funding Accountability and Transparency Act (FFATA) set forth in General Condition of the pass-through entity’s agreement with EPA entitled “**Reporting Subawards and Executive Compensation.**”

3. Limitations on individual consultant fees as set forth in General Condition 2 CFR 1500.9 and the General Condition of the pass-through entity’s agreement with EPA entitled “**Consultant Fee Cap.**”

4. EPA’s prohibition on paying management fees as set forth in General Condition of the pass-through entity’s agreement with EPA entitled “**Management Fees.**”

5. The Procurement Standards in 2 CFR Part 200 including those requiring competition when the subrecipient acquires goods and services from contractors (including consultants).

EPA provides general information on other statutes, regulations and Executive Orders on the Grants internet site at www.epa.gov/grants. Many Federal requirements are agreement or program specific and EPA encourages pass-through entities to review the terms of their assistance agreement carefully and consult with their EPA Project Officer for advice, if necessary.

C. Any additional requirements such as financial and performance reports the pass-through entity

imposes on the subrecipient to ensure that the pass-through entity meets its own responsibilities to the Federal awarding agency.

D. Subrecipient's Indirect Cost Rate. The indirect cost rate may be a rate negotiated and approved by the subrecipient's cognizant Federal agency. If the subrecipient does not have a Federal indirect cost rate, the pass-through entity may negotiate an indirect cost rate with the subrecipient that complies with 2 CFR Part 200, Subpart E or use the 10% de-minimis indirect cost rate described at 2 CFR 200.414(f).

E. Requirements for the subrecipient to provide access to subaward records so that the pass-through entity and Federal auditors may verify compliance with 2 CFR 200.331 as well as 2 CFR Part 200, Subpart D, Post Federal Award Requirements for Financial and Program Management, and 2 CFR Part 200, Subpart F, Audit Requirements. Examples of records include:

1. Subrecipient financial statements and reports;
2. Programmatic reports including information on environmental results
3. Audit findings

F. Additional Requirements imposed by the pass-through entity under 2 CFR 200.207 that reflect the pass-through entity's assessment of the subrecipient's risk of noncompliance with Federal statutes, regulations and the terms and conditions of the subaward based on the factors described at 2 CFR 200.331(b).

1. Risk factors may include:

- (a) Prior experience with same or similar subawards;
- (b) Results of previous audits;
- (c) Whether new or substantially changed personnel or systems, and;
- (d) Extent and results of Federal awarding agency or the pass-through entity's monitoring.

2. Examples of additional requirements authorized by 2 CFR 200.207 include:

- (a) Requiring payments as reimbursements rather than advance payments;
- (b) Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given period of performance;
- (c) Requiring additional, more detailed financial reports;
- (d) Requiring additional project monitoring;
- (e) Requiring the non-Federal entity to obtain technical or management assistance, and;
- (f) Establishing additional prior approvals.

G. Terms and conditions concerning the close out of the subaward.

III. Other requirements based on the pass-through entity's own laws, regulations, and policies to the extent that they do not conflict with applicable Federal laws, statutes, regulations and policies.

Any public entity as an additional insured, and the officers, officials, employees, agents and/or volunteers of that public entity, as applicable, who may be named in the Schedule above, when you have agreed in a written contract or written agreement presently in effect or becoming effective during the term of this policy, that such public entity and/or its officers, officials, employees, agents and/or volunteers be added as an additional insured(s) on your policy, but only with respect to liability for “bodily injury”, “property damage” or “personal and advertising injury” caused, in whole or in part, by:

- a. Your negligent acts or omissions; or
- b. The negligent acts or omissions of those acting on your behalf;

in the performance of your ongoing operations.

No such public entity or individual is an additional insured for liability arising out of the sole negligence by that public entity or its designated individuals. The additional insured status will not be afforded with respect to liability arising out of or related to your activities as a real estate manager for that person or organization.

B. Section III – LIMITS OF INSURANCE is amended to include:

8. The limits of insurance applicable to the public entity and applicable individuals identified as an additional insured(s) pursuant to Provision A.4. above, are those specified in the written contract between you and that public entity, or the limits available under this policy, whichever are less. These limits are part of and not in addition to the limits of insurance under this policy.

C. With respect to the insurance provided to the additional insured(s), Condition 4. Other Insurance of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS is replaced by the following:

4. Other Insurance

a. Primary Insurance

This insurance is primary if you have agreed in a written contract or written agreement:

- (1) That this insurance be primary. If other insurance is also primary, we will share with all that other insurance as described in c. below; or

A Head for Insurance. A Heart for Nonprofits.

POLICY NUMBER: 2023-00842

- (2) The coverage afforded by this insurance is primary and non-contributory with the additional insured(s)' own insurance.

Paragraphs (1) and (2) do not apply to other insurance to which the additional insured(s) has been added as an additional insured or to other insurance described in paragraph **b.** below.

b. Excess Insurance

This insurance is excess over:

1. Any of the other insurance, whether primary, excess, contingent or on any other basis:
 - (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";
 - (b) That is fire, lightning, or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;
 - (c) That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises temporarily occupied by you with permission of the owner; or
 - (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of **SECTION I – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE.**
 - (e) Any other insurance available to an additional insured(s) under this Endorsement covering liability for damages which are subject to this endorsement and for which the additional insured(s) has been added as an additional insured by that other insurance.
- (1) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the additional insured(s) against any "suit" if any other insurer has a duty to defend the additional insured(s) against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured(s)' rights against all those other insurers.
- (2) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:
 - (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
 - (b) The total of all deductible and self-insured amounts under all that other insurance.
- (3) We will share the remaining loss, if any, with any other insurance that is not described in this **Excess Insurance** provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Methods of Sharing

If all of the other insurance available to the additional insured(s) permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any other the other insurance available to the additional insured(s) does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.
