**Open-ended Comments Submitted for the  
Survey for Seniors and People with Disabilities – November 2022****About the AIM PROGRAM**

- I love having something available that has a guaranteed ETA that is much shorter than paratransit. I feel bad that the drivers do not receive a tip with AIM like would otherwise though, so I keep cash on hand to give them. It seems any Lyft driver may be picked and when they don't receive a tip I worry that they will take it personally.
- Generally a very good experience. A couple of times they couldn't find me but overall, a very good experience. They get me where I want to go cheaply, and in-style and comfort. I wish that they ran in the evenings and on weekends.
- Very good! But once the driver never came to pick me up.
- All of my expectations were met. It was very easy to use and reliable.
- I love AIM and can't wait until they offer weekend rides
- I often have ride cancelled by the lyft driver 3 or more times for one ride. I wait on curb for 9 minutes then they cancel. Get assigned another driver, wait 7 minutes, they cancel. Get assigned a third driver, etc. it is so frustrating. At other times my ride has gone smoothly.
- It's a good service
- Not good at all. Difficult phone contact, limited schedule, not enough wheelchair vans. Left without a van home & no ride.

**About TRAVEL TRAINING**

- Kat Kaldis, the instructor, is excellent! She's patient, very knowledgeable - goes overboard to help those in the class.
- My wife and I have taken a couple of Kat's programs; we're very satisfied.
- The programs were particularly helpful to those who had never ridden the bus before or were nervous to begin riding it.
- If I ever get a cell phone, the app training so show when the bus is expected to arrive would be worth learning.
- The training was not helpful for the mobility impaired as it required too much walking.
- Hop on the Bus should demonstrate interface with BART or ferry off-island.
- Coordinating trips across different modes of mass transit [BART, ferry, MUNI, train, etc.]
- I think the Hop On The Bus sounds like something I would be very interested in. One of the reasons I don't use public transit is that I don't know how!
- How to plan a fun day outing to locations outside of my hometown using public transportation
- online travel training
- Would be interesting to learn about navigating transit systems in other regions i.e. other cities, states and countries.
