## Owner's Responsibilities

a) Provide any necessary permits and/or licenses.
b) Provide power to a location near the sorter and coordinated points near the conveyor route (within 10 feet) 120 V single phase.
c) If required, provide details of structural, or imbedded obstructions within floor or ceiling structures. X-ray or other methods is not included unless otherwise specified.
d) Provide one network drop per Library Mate ${ }^{T M}$ or Ergo Staff ${ }^{T M}$, one for each sorter for communication and support, and one for onsite commissioner.
e) Provide one SIP license for each check-in station.
f) Allow for site-to-site VPN (IPSEC) for commissioning and ongoing hotline support. Additional details contained in LS Remote Customer Support document
g) Provide a clear path for access to and from the installation site for personnel and equipment.
h) Provide secure, dry, convenient storage for equipment, tools and materials used on site.
i) Provide adequate working space for the installation crew. Provide lighting for installation at the location where the work is to be performed. Provide parking and restroom facilities. Provide onsite security
j) If special lift equipment is required, Lyngsoe Systems must have access to a ramp door.
k) Areas of installation to be broom swept by other contractors prior to the start of Lyngsoe Systems installation.
I) Provide no later than the scheduled start of installation date, the installation site free and clear and ready for Lyngsoe Systems to begin installation. Lyngsoe Systems acknowledges that some degree of facility construction may be underway during installation. The Purchaser acknowledges its responsibility to minimize possible resulting disruptions to Lyngsoe Systems' installation process.
m) Provide no later than start of installation date, all civil work and necessary removal or modifications of existing equipment or buildings. For instance, the building modifications required for the installation of the Library Mates ${ }^{\text {TM }}$ in exterior or interior walls, and penetration points through walls required by the conveyor run. Architectural finishing of penetration points after installation of Library Mates ${ }^{\text {TM }}$ if required.
