[EXTERNAL] It seems as though it's not going to stop until we have absolute gridlock and our City is full of unaffordable housing with no parking.

Dear Council,

I think the subject matter says it all. "Slow Streets" is working because the streets are jam packed. There is no traffic enforcement and the police have their hands tied. Crime is rampant. Graffiti is sickening and garbage and drugs are costing us our sanity and young generations.

Not everyone can drive scooters, bikes, Ebike's and the like. The money we get through housing grants, the road stipends we get for pretty plastic paint and plastic cones and necking down traffic to a crawl such that we can't come and go to our job and affairs is killing our City. Bring back law enforcement, please.

Just say No when it is appropriate. Do the right thing. In 10 years or less all of this infrastructure will need replacing. Who will pay it off next time around? I think you/we all know.
