5. STANDARD OF CARE:

Provider shall perform all services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Provider represents that it is skilled in the professional calling necessary to perform all services contracted for in this Agreement. Provider further represents that all of its employees and subcontractors shall have sufficient skill and experience to perform the duties assigned to them pursuant to and in furtherance this Agreement. Provider further represents that it (and its employees and subcontractors) have all licenses, permits, qualifications, and approvals of whatever nature that are legally required to perform the services (including a City Business License, as needed); and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Provider shall perform (at its own cost and expense and without reimbursement from the City) any services necessary to correct errors or omissions which are caused by Provider's failure to comply with the standard of care provided for herein. Any employee of the Provider or its sub-providers who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of any services under this Agreement, or a threat to the safety of persons or property (or any employee who fails or refuses to perform the services in a manner acceptable to the City) shall be promptly removed by the Provider and shall not be re-employed to perform any further services under this Agreement.

6. INDEPENDENT PARTIES:

Provider hereby declares that Provider is engaged as an independent business and Provider agrees to perform the services as an independent contractor. The manner and means of conducting the services and tasks are under the control of Provider except to the extent they are limited by statute, rule or regulation and the express terms of this Agreement. No civil service status or other right of employment will be acquired by virtue of Provider's services. None of the benefits provided by the City to its employees, including but not limited to unemployment insurance, workers' compensation plans, vacation and sick leave, are available from the City to Provider, its employees or agents. Deductions shall not be made for any state or federal taxes, FICA payments, PERS payments, or other purposes normally associated with an employer-employee relationship from any compensation due to Provider. Payments of the above items, if required, are the responsibility of Provider. Any personnel performing the services under this Agreement on behalf

of Provider shall also not be employees of City and shall at all times be under Provider's exclusive direction and control.

7. IMMIGRATION REFORM AND CONTROL ACT (IRCA):

Provider assumes any and all responsibility for verifying the identity and employment authorization of all of its employees performing work hereunder, pursuant to all applicable IRCA or other federal, or state rules and regulations. Provider shall indemnify, defend, and hold the City harmless from and against any loss, damage, liability, costs or expenses arising from any noncompliance of this provision by Provider.

8. NON-DISCRIMINATION:

Consistent with the City's policy and state and federal law that harassment and discrimination are unacceptable conduct, Provider and its employees, contractors, and agents shall not harass or discriminate against any job applicant, City employee, or any other person on the basis of any kind of any statutorily (federal, state or local) protected class, including but not limited to: race, religious creed, color, national origin, ancestry, disability (both mental and physical) including HIV and AIDS, medical condition (e.g. cancer), genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, pregnancy, political affiliation, military and veteran status or legitimate union activities. If the Claims filed against Indemnitees allege negligence, recklessness or willful misconduct on the part of Provider, Provider shall have no right of reimbursement against Indemnitees for the costs of defense even if negligence, recklessness or willful misconduct is not found on the part of Provider. Provider shall not have any obligations to indemnify Indemnitees if the loss or damage is found to have resulted solely from the negligence or the willful misconduct of the City. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

b. As to Claims for professional liability only, Provider's obligation to defend Indemnitees (as set forth above) is limited as provided in California Civil Code Section 2782.8.

c. Provider's obligation to indemnify, defend and hold harmless Indemnitees shall expressly survive the expiration or early termination of this Agreement.

10. INSURANCE:

On or before the commencement of the terms of this Agreement, Provider shall furnish the City's Risk Manager with certificates showing the type, amount, class of operations covered, effective dates and dates of expiration of insurance coverage in compliance with Sections 10.b. Such certificates, which do not limit Provider's indemnification, shall also contain substantially the following statement:

"Should any of the above insurance covered by this certificate be canceled or coverage reduced before the expiration date thereof, the insurer affording coverage shall provide thirty (30) days' advance written notice to the City of Alameda. Attention: Risk Manager."

Provider shall maintain in force at all times during the performance of this Agreement all appropriate coverage of insurance required by this Agreement with an insurance company licensed to offer insurance business in the State of California with a current A.M. As to commercial general liability and automobile liability insurance, such insurance will provide that it constitutes primary insurance with respect to claims insured by such policy, and, except with respect to limits, that insurance applies separately to each insured against whom claim is made or suit is brought. Such insurance is not additional to or contributing with any other insurance carried by or for the benefit of the City.

c. SUBROGATION WAIVER:

Provider hereby agrees to waive rights of subrogation that any insurer of Provider may acquire from Provider by virtue of the payment of any loss. Provider agrees to obtain any endorsement that

Any other insurance held by an additional insured shall not be required to contribute anything toward any loss or expense covered by the insurance provided by this policy. Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured(s).

f. SUFFICIENCY OF INSURANCE:

The insurance limits required by the City are not represented as being sufficient to protect Provider. No insurance policies maintained by the indemnified parties or Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until all the primary and excess liability policies carried by or available to the Provider are exhausted. **If a Provider is using an Excess Liability policy to supplement any insurance coverage required by this Agreement, they must submit the Excess Liability policy in full.**

11. CONFLICT OF INTEREST:

Provider warrants that it is not a conflict of interest for Provider to perform the services required by this Agreement. Provider may be required to fill out a conflict of interest form if the services provided under this Agreement require Provider to make certain governmental decisions or serve in a staff capacity as defined in Title 2, Division 6, Section 18700 of the California Code of Regulations.

12. PROHIBITION AGAINST TRANSFERS:

a. Provider shall not assign, sublease, hypothecate, or transfer this Agreement, or any interest therein, directly or indirectly, by operation of law or otherwise, without prior written consent of the City Manager. Provider shall submit a written request for consent to transfer to the City Manager at least thirty (30) days in advance of the desired transfer. The City Manager or their designee may consent or reject such request in their sole and absolute discretion. Any attempt to do so without said consent shall be null and void, and any assignee, sublessee, hypothecate or transferee shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer. However, claims for money against the City under this Agreement may be assigned by Provider to a bank, trust company or other financial institution without prior written consent.

b. The sale, assignment, transfer or other disposition of any of the issued and outstanding capital stock, membership interest, partnership interest, or the equivalent, which shall result in changing the control of Provider, shall be construed as an assignment of this Agreement. Provider shall include the following language in their agreement with any sub-provider: "Sub-providers hired by Provider agree to be bound to Provider and the City in the same manner and to the same extent as Provider is bound to the City."

CITY OF ALAMEDA TEAM ORGANIZATION CHART

A. Description of Organization, Management and Team Members.

Provide a description of the team/consultant organization, and a work plan that identifies the personnel to be assigned to each task. The organization description should clearly identify who will be the project manager for this term contract, and the day to day contact person for the job. Include resumes of key personnel and indicate which branch office they work out of. The City expects to work with the same project manager during the entire term of the contract, but expects that the team will be tailored to the size of each individual project.

Shah Kawasaki Architects | Prime Consultant

C. Organization Qualifications.

Provide an outline of the organization qualifications indicating relevant background experience and capabilities for this work. Give examples of work accomplished that is similar in size and content to the Scope of Services. If available, give examples of other on-call services contracts. If the proposing firm is likely to be using a subconsultant for the type of work discussed in the Scope of Services, provide information on that subconsultant.

On-Call, As-Needed Service Contracts

Shah Kawasaki Architects (SKA) has been successful as on-call architects because we take a client centered approach to our projects; we invest in learning about our clients' goals and processes and strive to operate as an extension of their organization. Through our work, we hope to learn about your goals, your priorities, and how to work with your stakeholders and end users. Our Mission is to help you accomplish your mission; to operate as a member of your team.

Comprehensive Design Services

SKA provides comprehensive architectural design services including feasibility studies, programming, master planning, schematic design, design development, construction documents, bidding and negotiating services, and construction administration. Our team can serve projects

from the earliest stages of site surveying and existing building analysis, through the public outreach & community engagement process, complete full construction documents, assist in bidding, and follow through with construction assistance. We assist our clients with agency approval such as the Building Department, Fire Marshal, County Health Department, and other regulatory agencies required by the project. Our project type and size range from ground up buildings to equipment installations. Our team is flexible and can respond quickly to changing circumstances and we are ready and able to do so.

Conceptual Planning / Feasibility Studies

As on-call architects, we frequently work with our clients to conceptualize projects. We believe that our ability to understand clients and to anticipate their needs is critical to the success of our projects. Our feasibility study scope usually involves studying the client's operations, evaluating their existing facilities, and assisting them with developing a masterplan for the future. We have completed major feasibility studies for Alameda County, City of Oakland, and UC Berkeley. Our work with the City of Oakland includes the Public Works Agency's two largest recent projects: a 375,000 square foot Police Administration Campus and a 200,000 square foot Municipal Service Center.

Project Types

With 20 years of Public Sector experience, we have in-depth knowledge in the planning and design of many facility types and experience working with many user groups and stakeholders. Understanding the essential components of each facility type and best practices in the industry allows us to help our clients translate the functional requirements of their existing facilities into building programs that meet current needs and allow for future growth. Our experience in facility types includes administrative offices, fire stations, police facilities, recreational facilities, maintenance and operations facilities, laboratories, and classroom buildings.

Energy Modeling

SKA uses energy modeling to optimize the building design through solar shading, window-to-wall ratio, insulation, window glazing, building massing and orientation, and daylighting. On the Brentwood Municipal Service Center, architectural improvements from eQuest modeling was able to reduce building energy usage by 24% over baseline. More significantly, improved building performance allowed the design cooling capacity of the HVAC system to be reduced from 50 tons to 37.5 tons, a 25% savings in cost and energy usage.

Project Size

We have successfully completed projects with construction budgets that range from \$50,000 to \$30 Million. These project types include new buildings, building modernization, and tenant improvements, with size ranging from 1,200 square feet to 200,000 square feet. We are committed to deliver the same high level of attention and service to all projects regardless of size.

Sustainable Design and Energy Efficiency

SKA's commitment to the environment goes beyond designing for LEED Certification. An important part of our comprehensive design services is our ability to integrate sustainable design practices into every phase of our projects. Our design process includes the use of modeling tools such as eQuest energy modeling software to optimize building design, and Dialux lighting modeling to improve daylighting and artificial lighting design and reduce energy usage from lighting. Shah Kawasaki Architects is an Alameda County Certified Green Business.

Lighting Design

We use daylight and artificial light modeling to select appropriate light fixtures and develop the most efficient layout to meet design illumination requirements and energy budget. For the OUSD Educational Leadership Complex (ELC) renovation project, we used Dialux professional lighting software to reduce lighting energy density by at least 10% to meet PG&E Savings by Design Guidelines. In the case of the two story Cafe at ELC, we evaluated three light fixtures and found that one met both design and energy criteria.

Design / Communications

We believe good design results from making good decisions. At SKA, our role in the design process is to enhance the ability of our clients to make good decisions. We achieve this goal through visualization, analysis, and communications.

Visualization

A picture is worth a thousand words. Our team is adept at using design/communications tools help clients understand issues and visualize solutions. Our near-photorealistic renderings to help clients experience and evaluate design options. 3D studies enable the user to visualize lighting/daylighting, materials, access to views, and quality of space.

Analysis

SKA has a rigorous process to identify and assist clients in resolving design issues. First, we will proactively identify and track potential issues. Our team will perform necessary research and develop options for the client to consider. We will review these options with the client and work collaboratively to develop a strategy to achieve consensus with various stakeholders.

Communications

We are most successful when we can align our goals and agendas with that of our clients. Successful collaboration comes from good communications. On every project, we strive to learn key issues that are most important to the client and how we can most effectively collaborate with them.

Design Visualizations

SKA provided visualization of major program areas for the Probation Day Transition Center (TDRC) as proof of concept to help users understand the quality of space in the design.

Ground Floor Cafe

Public seating area and casual meeting space with 40-50 seats. The Cafe is the heart of the TDRC.

Large Conference Room

40 seat, dividable meeting room where Probation Officers, Case Managers, and Non-Governmental Organization representatives can meet twice a month to discuss active cases.

Multi-Purpose Room

Large flexible space on the first floor for recreation, group programs, and graduations.

OUSD Cole Administration Building

The Central Administrative Center is a two-story, 56,000 sf office building designed to house Central Office staff and a new Boardroom for public meetings. Designed to be Zero Net Energy Ready and meet CHPS Certification, the building is optimized for energy efficiency while creating a safe, comfortable, and collaborative environment for occupants. Innovative features include canopies around the building that provide solar shading while creating an enclosure for usable outdoor space. High clerestory windows bring daylight into the middle of the building for open office areas. The canopy also provides a structure for signage to communicate District Core Values and Academic Pathways. Custom designed frit glass wall and art display systems are integrated into lobbies and circulation areas to allow the District to showcase art from local artists and school sites.

Wheeler Hall Capital Renewal Project

Constructed in 1917, Wheeler Hall is one of the most significant historic buildings on the UC Berkeley Campus. SKA assisted the University with a thorough building assessment and helped develop a budget for the \$20-million renewal project. The scope of the project includes infrastructure upgrades, such as the mechanical and electrical system, and rehabilitation of the exterior envelope.

The project also included the renovation of existing classrooms. Some smaller classrooms were combined to create classrooms sizes that were in demand on campus. On the second floor, four smaller classrooms were combined to create a 100 seat SCALE-UP (Student Centered Active Learning Environment for Undergraduate Programs) classroom, an active learning environment where students are encouraged to interact and solve problems while the instructor circulates the room to assist students.

AUSD Franklin Elementary School Playground & ADA Upgrades

SKA assisted Alameda Unified School District with the design drawings for a play structure installation at Franklin Elementary School and accessibility upgrades for DSA applications. The scope of work included the replacement of an existing playground structure with a new playground structure that features a rubber, pour-in-place safety surface. In addition to coordinating the play structure design documents, an accessible path of travel survey was conducted to determine code required updates to areas such as the boy's and girl's restroom, the accessible parking stall and school main entry.

OUSD Westlake Middle School Field Replacement & ADA Upgrade

SKA assisted Oakland Unified School District with the design of a replacement sports field and accessibility upgrades at Westlake Middle School. The project replaced an existing blacktop playground with a synthetic soccer field and track. Accessibility scope of work included upgrades to existing restrooms, addition of low voltage door operators, and modification of the front entrance. Access to the elevated front entrance required a new accessible ramp and significant modifications to an existing ramp to comply with current ADA and California Building Code.

AC Environmental Health Vector Lab

Alameda County's Environmental Health Vector Laboratories was in need of both a remodel and expansion. Located on the 1st floor of the Alameda County Health Care Services Agency building, the project includes spaces for various specialized laboratory spaces including a vertebrate lab, insecticide lab, lab rearing and cold storage, and the main vector lab. The team updated the space circulation and design to meet program needs, upgraded an emergency / back up system, and designed to meet 2013 CBC and current ADA code requirements.

Napa Fire Station 5

Napa Station 5 incorporates a number of fire station design best practices. The station has been zoned to provide a clear separation of the apparatus (hot zone) from the living quarters (cold zone). Each doorway (warm zone) leading from the apparatus bay to the living quarters has both a sink to remove hand contaminants, and integral floor mats to remove contaminants from shoes. NFPA 1581 best design practices for material selection, cleaning stations and kitchen design have been employed. With all these features, the station remains a warm and comfortable environment for the fire personnel.

COMMERCIAL GENERAL LIABILITY

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

d. Primary And Non-Contributory Insurance If Required By Written Contract

If you specifically agree in a written contract or agreement that the insurance afforded to an insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such insured which covers such insured as a named insured, and we will not share with that other insurance, provided that:

- (1) The "bodily injury" or "property damage" for which coverage is sought occurs; and
- (2) The "personal and advertising injury" for which coverage is sought is caused by an offense that is committed;

subsequent to the signing of that contract or agreement by you.

5. Premium Audit

- a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.
- b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.
- c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. Representations

By accepting this policy, you agree:

- a. The statements in the Declarations are accurate and complete;
- b. Those statements are based upon representations you made to us; and
- c. We have issued this policy in reliance upon your representations.

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. However, this provision does not affect our right to collect additional premium or to exercise our rights of cancellation or nonrenewal in accordance with applicable insurance laws or regulations.

7. Separation Of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

- a. As if each Named Insured were the only Named Insured; and
- b. Separately to each insured against whom claim is made or "suit" is brought.

8. Transfer Of Rights Of Recovery Against Others To Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

9. When We Do Not Renew

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

SECTION V – DEFINITIONS

1. "Advertisement" means a notice that is broadcast or published to the general public or specific market segments about your goods, products or services for the purpose of attracting customers or supporters. For the purposes of this definition:

L. AMENDMENT OF EXCESS INSURANCE CONDITION – PROFESSIONAL LIABILITY

The following is added to Paragraph 4.b., **Excess Insurance**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis, that is Professional Liability or similar coverage, to the extent the loss is not subject to the professional services exclusion of Coverage A or Coverage B.

M. BLANKET WAIVER OF SUBROGATION – WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT

The following is added to Paragraph 8., **Transfer Of Rights Of Recovery Against Others To Us**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

4. Loss Payment – Physical Damage Coverages

At our option, we may:

- a. Pay for, repair or replace damaged or stolen property;
- b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or
- c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

5. Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

B. General Conditions

1. Bankruptcy

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this Coverage Form.

2. Concealment, Misrepresentation Or Fraud

This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other "insured", at any time, intentionally conceals or misrepresents a material fact concerning:

- a. This Coverage Form;
- b. The covered "auto";
- c. Your interest in the covered "auto"; or
- d. A claim under this Coverage Form.

3. Liberalization

If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

4. No Benefit To Bailee – Physical Damage Coverages

We will not recognize any assignment or grant any coverage for the benefit of any per-

son or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

5. Other Insurance

- a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Covered Autos Liability Coverage this Coverage Form provides for the "trailer" is:

- (1) Excess while it is connected to a motor vehicle you do not own; or
- (2) Primary while it is connected to a covered "auto" you own.

- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Covered Autos Liability Coverage is primary for any liability assumed under an "insured contract".

- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.
