5. STANDARD OF CARE:

Provider shall perform all services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Provider represents that it is skilled in the professional calling necessary to perform all services contracted for in this Agreement. Provider further represents that all of its employees and subcontractors shall have sufficient skill and experience to perform the duties assigned to them pursuant to and in furtherance this Agreement. Provider further represents that it (and its employees and subcontractors) have all licenses, permits, qualifications, and approvals of whatever nature that are legally required to perform the services (including a City Business License, as needed); and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Provider shall perform (at its own cost and expense and without reimbursement from the City) any services necessary to correct errors or omissions which are caused by Provider's failure to comply with the standard of care provided for herein. Any employee of the Provider or its sub-providers who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of any services under this Agreement, or a threat to the safety of persons or property (or any employee who fails or refuses to perform the services in a manner acceptable to the City) shall be promptly removed by the Provider and shall not be re-employed to perform any further services under this Agreement.

6. INDEPENDENT PARTIES:

Provider hereby declares that Provider is engaged as an independent business and Provider agrees to perform the services as an independent contractor. The manner and means of conducting the services and tasks are under the control of Provider except to the extent they are limited by statute, rule or regulation and the express terms of this Agreement. No civil service status or other right of employment will be acquired by virtue of Provider's services. None of the benefits provided by the City to its employees, including but not limited to unemployment insurance, workers' compensation plans, vacation and sick leave, are available from the City to Provider, its employees or agents. Deductions shall not be made for any state or federal taxes, FICA payments, PERS payments, or other purposes normally associated with an employer-employee relationship from any compensation due to Provider. Payments of the above items, if required, are the responsibility of Provider. Any personnel performing the services under this Agreement on behalf

of Provider shall also not be employees of City and shall at all times be under Provider's exclusive direction and control.

7. IMMIGRATION REFORM AND CONTROL ACT (IRCA):

Provider assumes any and all responsibility for verifying the identity and employment authorization of all of its employees performing work hereunder, pursuant to all applicable IRCA or other federal, or state rules and regulations. Provider shall indemnify, defend, and hold the City harmless from and against any loss, damage, liability, costs or expenses arising from any noncompliance of this provision by Provider.

8. NON-DISCRIMINATION:

Consistent with the City's policy and state and federal law that harassment and discrimination are unacceptable conduct, Provider and its employees, contractors, and agents shall not harass or discriminate against any job applicant, City employee, or any other person on the basis of any kind of any statutorily (federal, state or local) protected class, including but not limited to: race, religious creed, color, national origin, ancestry, disability (both mental and physical) including HIV and AIDS, medical condition (e.g. cancer), genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, pregnancy, political affiliation, military and veteran status or legitimate union activities. Such non-discrimination shall include but not be limited to all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, or termination. Provider agrees that any violation of this provision shall constitute a material breach of this Agreement.

9. HOLD HARMLESS:

a. To the fullest extent permitted by law, Provider shall indemnify, defend (with counsel acceptable to the City) and hold harmless the City, its City Council, boards, commissions, officials, employees, agents and volunteers ("Indemnitees") from and against any and all loss, damages, liability, obligations, claims, suits, judgments, costs and expenses whatsoever, including reasonable attorney's fees and costs of litigation ("Claims"), arising from or in any manner connected to Provider's negligent act, error or omission in the performance of its obligations under this Agreement or out of the operations conducted by Provider. In no event shall the cost to defend charged to the design professional exceed the design professional's proportionate percentage of fault. If the Claims filed against Indemnitees allege negligence, recklessness or willful misconduct on the part of Provider, Provider shall have no right of reimbursement against Indemnitees for the costs of defense even if negligence, recklessness or willful misconduct is not found on the part of Provider. Provider shall not have any obligations to indemnify Indemnitees if the loss or damage is found to have resulted solely from the negligence or the willful misconduct of the City. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

b. As to Claims for professional liability only, Provider's obligation to indemnify or defend Indemnitees (as set forth above) is limited as provided in California Civil Code Section 2782.8.

c. Provider's obligation to indemnify, defend and hold harmless Indemnitees shall expressly survive the expiration or early termination of this Agreement.

On or before the commencement of the terms of this Agreement, Provider shall furnish the City's Risk Manager with certificates showing the type, amount, class of operations covered, effective dates and dates of expiration of insurance coverage in compliance with Sections 10.b. (1) through (4). The Certificate Holder should be The City of Alameda, 2263 Santa Clara, Ave., Alameda, CA 94501. Such certificates, which do not limit Provider's indemnification, shall also contain substantially the following statement:

Provider shall maintain in force at all times during the performance of this Agreement all appropriate coverage of insurance required by this Agreement with an insurance company licensed to offer insurance business in the State of California with a current A.M. Best's rating of no less than A:VII or Standard & Poor's Rating (if rated) of at least BBB unless otherwise acceptable to the City. Provider shall deliver updated insurance certificates to the City at the address described in Section 17.f. prior to the expiration of the existing insurance certificate for the duration of the term of Agreement. Endorsements naming the City, its City Council, boards, commissions, officials, employees, agents, and volunteers as additional insured shall be submitted with the insurance certificates.

As to commercial general liability and automobile liability insurance, such insurance will provide that it constitutes primary insurance with respect to claims insured by such policy, and, except with respect to limits, that insurance applies separately to each insured against whom claim is made or suit is brought. Such insurance is not additional to or contributing with any other insurance carried by or for the benefit of the City.

c. SUBROGATION WAIVER:

Provider hereby agrees to waive rights of subrogation that any insurer of Provider may acquire from Provider by virtue of the payment of any loss. Provider agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether the City has received a waiver of subrogation endorsement from the insurer. Any other insurance held by an additional insured shall not be required to contribute anything toward any loss or expense covered by the insurance provided by this policy. Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured(s).

f. SUFFICIENCY OF INSURANCE:

The insurance limits required by the City are not represented as being sufficient to protect Provider. The coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of the coverage carried by or available to Provider; whichever is greater.

g. EXCESS OR UMBRELLA LIABILITY:

If any Excess or Umbrella Liability policies are used to meet the limits of liability required by this Agreement, then said policies shall be true "following form" of the underlying policy coverage, terms, conditions, and provisions and shall meet all of the insurance requirements stated in this Agreement, including but not limited to, the additional insured, SIR, and primary insurance requirements stated therein. No insurance policies maintained by the indemnified parties or Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until all the primary and excess liability policies carried by or available to the Provider are exhausted. **If a Provider is using an Excess Liability policy to supplement any insurance coverage required by this Agreement, they must submit the Excess Liability policy in full.**

11. CONFLICT OF INTEREST:

Provider warrants that it is not a conflict of interest for Provider to perform the services required by this Agreement. Provider may be required to fill out a conflict of interest form if the services provided under this Agreement require Provider to make certain governmental decisions or serve in a staff capacity as defined in Title 2, Division 6, Section 18700 of the California Code of Regulations.

12. PROHIBITION AGAINST TRANSFERS:

a. Provider shall not assign, sublease, hypothecate, or transfer this Agreement, or any interest therein, directly or indirectly, by operation of law or otherwise, without prior written consent of the City Manager. Provider shall submit a written request for consent to transfer to the City Manager at least thirty (30) days in advance of the desired transfer. The City Manager or their designee may consent or reject such request in their sole and absolute discretion. Any attempt

to do so without said consent shall be null and void, and any assignee, sublessee, hypothecate or transferee shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer. However, claims for money against the City under this Agreement may be assigned by Provider to a bank, trust company or other financial institution without prior written consent.

b. The sale, assignment, transfer or other disposition of any of the issued and outstanding capital stock, membership interest, partnership interest, or the equivalent, which shall result in changing the control of Provider, shall be construed as an assignment of this Agreement. Control means fifty percent or more of the voting power of Provider.

13. APPROVAL OF SUB-PROVIDERS:

a. Only those persons and/or businesses whose names and resumés are attached to this Agreement shall be used in the performance of this Agreement. However, if after the start of this Agreement, Provider wishes to use sub-providers, at no additional costs to the City, then Provider shall submit a written request for consent to add sub-providers including the names of the sub-providers and the reasons for the request to the City Manager at least five (5) days in advance. c. In addition, any tasks or services performed by sub-providers shall be subject to each provision of this Agreement. Provider shall include the following language in their agreement with any sub-provider: "Sub-providers hired by Provider agree to be bound to Provider and the City in the same manner and to the same extent as Provider is bound to the City."

Such Records, together with supporting documents, shall be kept separate from other documents and records and shall be maintained by Provider for a period of three (3) years after receipt of final payment.

d. If supplemental examination or audit of the Records is necessary due to concerns raised by the City's preliminary examination or audit of records, and the City's supplemental examination or audit of the records discloses a failure to adhere to appropriate internal financial controls, or other breach of this Agreement or failure to act in good faith, then Provider shall reimburse the City for all reasonable costs and expenses associated with the supplemental examination or audit.

As one of the largest specialized planning and engineering firms in California that works almost exclusively in areas where land and water meet, M&N has played a major role in civil engineering for shoreline upgrades and repairs in the Bay Area for over 40 years. Our reputation for excellence on projects in coastal, estuarine and riverine environments has been built over more than 80 years of experience since our founding in 1945 in California. We bring a knowledgeable staff of local engineers, planners, and scientists who are experts at solving the complex problems that affect waterfront facilities in terms of planning, engineering, design, permitting, construction, and stakeholder regulatory agency coordination.

We have completed thousands of projects, and have experience with engineering studies, analyses and condition assessments, concept development, detailed design, and engineering support during construction. We also perform coastal and structural analysis and modeling and can provide our services on an emergency basis if needed.

Moffatt & Nichol can provide above-water and underwater inspection services with in-house specialists. For geotechnical engineering, bathymetric surveying and topographic mapping, we rely on subconsultant firms specializing in these services when needed. For aerial UAV photography we utilize the Nearmap online service, which provides geo-referenced high-resolution aerial imagery in the Bay Area.

Work Plan

M&N has a dedicated process for on-call contracts. We understand the City may issue a number of task orders under the contract for a range of projects varying in type and scale. Jaclyn Gnusti will serve as our Contract Manager and main point of contact for the task orders. Knowing that flexibility is important, Jaclyn will use the following approach to manage and complete a task order assignment that is received under this contract:

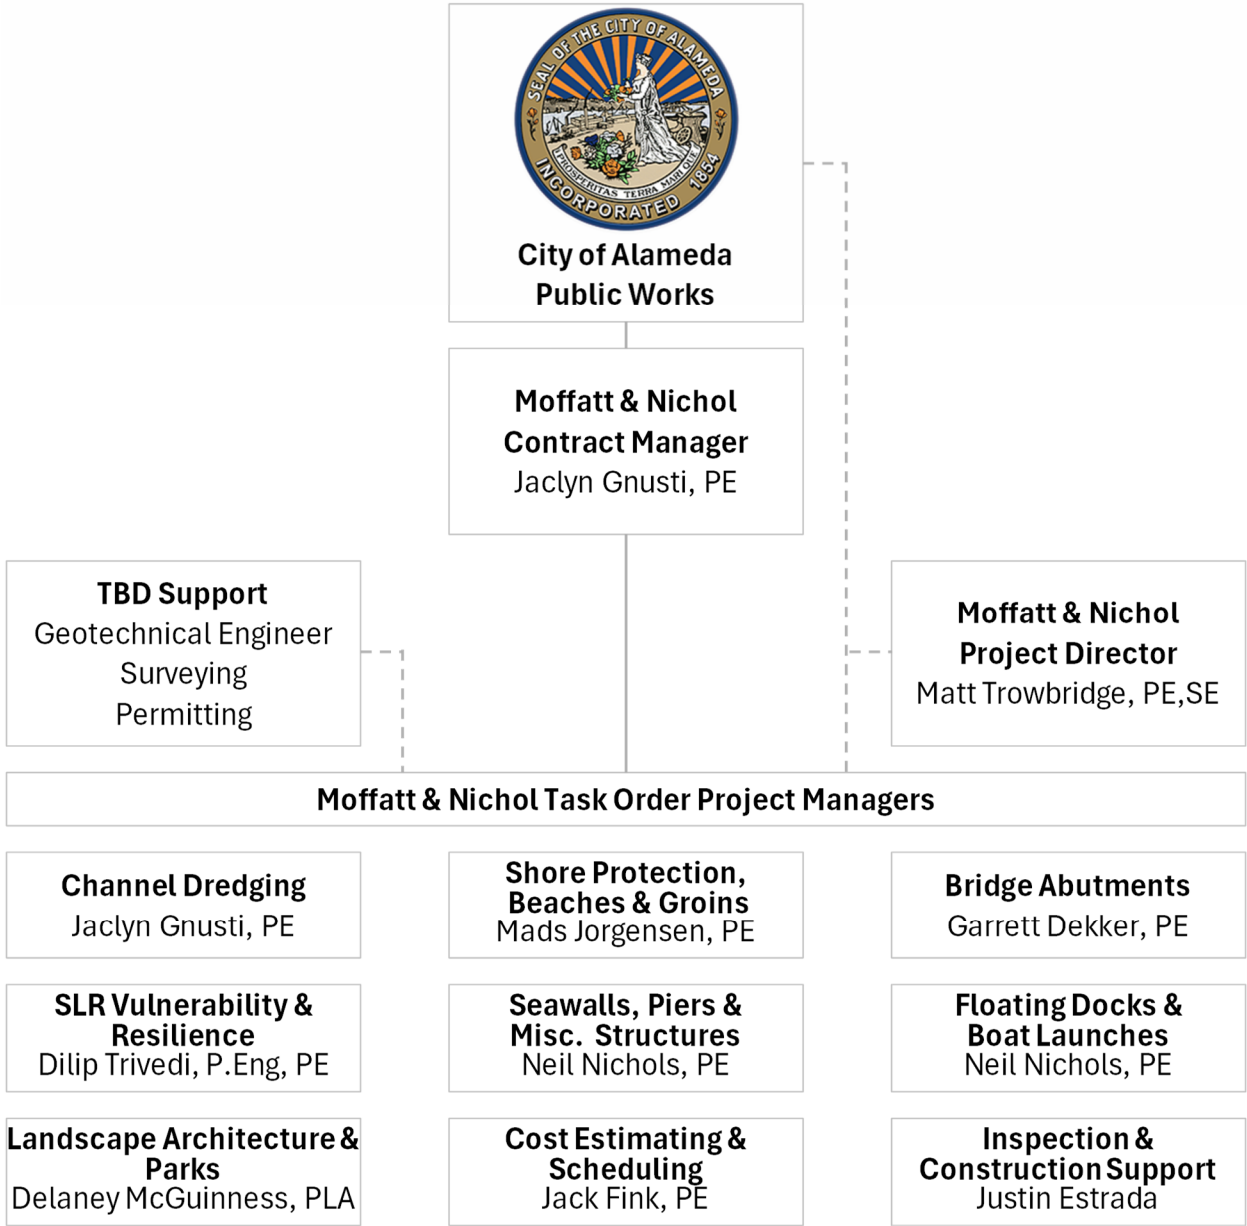

1. Jaclyn will coordinate with the City project manager to obtain a clear understanding of technical requirements and project objectives.
2. She will then identify an M&N task order Project Manager to create a scope of work, budget, and schedule, and assign the appropriate team of engineers and technical specialists to carry out the work.
3. The team will collaborate to create a work plan to implement the project work under the task order.

P250932

- 4. With City approval, the task order work will be initiated through a formal Kick-Off Meeting.
- 5. Studies, analysis, and design will be conducted in accordance with the City’s direction and applicable standards.

Project progress reports and invoices will be submitted to the City each month. Our assigned task order project manager will conduct regular check-ins with both Jaclyn and the City project manager to make sure that the project is on track in terms of schedule, budget and deliverable quality.

Our proposed staffing for City of Alameda Task Orders is shown in the organization chart below.

P250932

Table 1 summarizes key personnel we are proposing for the Project Team to work on City Task Orders. All of our staff have extensive experience working on projects in the Bay Area. Quality Management

A high level of quality is expected on all deliverables, and we are committed to meeting the City's quality expectations. The quality of our work is inherently based on the following key elements: 1) Assignment of experienced staff, 2) Continuity of staffing, 3) Established design/detailing procedures (with checklists), 4) Established quality control procedures (with checklists), 5) Independent reviews; and 6) Quality control reviews. M&N's Quality Management System is ISO 9001 Certified and is comprised of an external and an internal component. The external component describes and defines our Quality Management System and ensures quality in our deliverables to clients. The internal part of the system consists of work procedures and standards for how we conduct our work to deliver quality. A first step of every project assignment is the creation of a Project Plan which provides key project information and identifies project stakeholders, contact information, deliverables, and milestone dates for project execution. The project plan is maintained and continually updated over the course of the project.

B. Qualifications

Firm Capabilities

Since the founding of Moffatt & Nichol in 1947, shoreline engineering has been at the core of our services. Since then, we have provided engineering services for all types of waterfront facilities and development on San Francisco Bay and at Alameda. Some of our recent, notable projects include engineering for development projects at Seaplane Lagoon, the Alameda waterfront and Bay Farm Island shoreline.

As part of these projects, we have incorporated innovative approaches in addressing complex coastal phenomena such as tsunamis, storm surges, and global climate change that presents itself as sea level rise induced flooding. Our civil and coastal engineers have a comprehensive understanding of these phenomena and how they play a role in influencing proposed land uses and public access, impacts to maritime operations infrastructure protection systems, and designs for future adaptations.

Our expertise in shoreline engineering and design of urban waterfronts encapsulates the entire spectrum of marine structures including piers, wharves, bulkheads, revetments, and seawalls; recreational uses such as boat launches and marinas; transportation infrastructure such as ferry landings and bridges; and maritime uses such as container, break-bulk, and other commercial operations. Our staff members have decades of experience along the Alameda waterfront. This experience has led us to recognize adaptation designs in an urban marine environment need to: 1) Respond to performance targets – from a flood protection as well as structural integrity perspective, 2) Be permittable, constructable, and affordable, and 3) Accommodate planned land uses and public access goals.

Over the past several decades, we have provided civil and shoreline engineering and flood defense solutions for numerous waterfront and shoreline park developments along the Bay, bringing these projects to fruition. Our proven experience in integrating design of waterfront structures with public access needs and nature-based shoreline protection systems sets us apart from traditional approaches to providing flood protection along the waterfront.

Our key team members bring decades of experience within the core engineering disciplines that bring urban waterfront projects together combining visionary planning, building and landscape architecture, civil, structural, geotechnical, and environmental engineering; and specialty disciplines – seismic design, bridge design, coastal and marine engineering, and naval architecture for vessels and floating structures. Our staff provides a deep bench and knowledge within their respective fields of practice such as habitat restoration, preservation and enhancement, traffic, noise, vibration and lighting analysis and studies; electrical engineering for waterfront and marine facilities; public and stakeholder outreach, and regulatory agency outreach and permit coordination.

Relevant Experience

Summaries of our relevant project experience are provided in the following.

Oakland Alameda Adaptation Project, Alameda, CA.

As a subconsultant to CMG Landscape Architecture, Moffatt & Nichol was responsible for site analysis, shoreline engineering, and development of design concepts and sea level rise adaptation alternatives. The work is being conducted under the Oakland Alameda Adaptation Committee (OAAC) led multi-jurisdictional subregional adaptation planning initiative concerning the vitality and resilience of the Oakland-Alameda Estuary, San Leandro Estuary, and Bay Farm Island northern shoreline. The Bay Farm Adaptation Project focuses on addressing 2 feet of sea level rise over the coming decades (near-term), aiming to identify feasible adaptation strategies long-term. The near-term objectives of the project include removing the lagoon area of Bay Farm Island from the FEMA 100-year floodplain, improving the resilience of the northern shoreline, protecting the Bay Trail from erosion, aiming to enhance shoreline habitat with nature-based solutions and enhance public access and recreation.

Relevance: Shoreline upgrades and repairs, sea level rise adaptation, shoreline improvements.

De-Pave Park Masterplan & 30% Design, Seaplane Lagoon, Alameda, CA.

As a subconsultant to CMG Landscape Architecture, Moffatt & Nichol was responsible for shoreline engineering and provided deliverables for the masterplan and 30% design development of shoreline structures and marsh habitat for De-Pave Park, which is proposed to be a 21-acre ecological park in which all existing concrete will be removed to create tidal wetlands and wildlife habitat adjacent to the existing VA wetland. The project will create salt marsh, coastal scrub, eelgrass habitat (pilot), a beach, tide garden, and public access for recreation and water activities, encompassing a promenade, overlook, picnic and discovery play area.

Relevance: Shoreline upgrades and repairs, rip-rap, sheet-pile wall, park improvements.

Robert W. Crown Memorial State Beach, Alameda, CA.

Moffatt & Nichol provided civil and coastal engineering services to the East Bay Regional Park District for the restoration of the Robert W. Crown Memorial State Beach. The beach is located along the southern shoreline of Alameda Island in San Francisco Bay. Moffatt & Nichol was responsible for an initial erosion and storm damage assessment, coordination and guidance for the permitting and construction phases, and construction documents.

The storm damage and erosion assessments were used to obtain FEMA and State Beach Erosion Control Authority funds to cover the majority of the beach restoration. Moffatt & Nichol provided plans and methods to complete beach restoration activities while protecting an extensive eel grass bed, located just offshore of the project, and the Elsie Roemer Bird Sanctuary, located to the south of the project. A 1.8-mile stretch

P250932

of beach was restored to the original 1988 as-built width, providing up to 100 feet of additional beach for recreation and infrastructure buffer. In addition, the existing Park Street groin was extended landward to limit back passing of material into the Elsie Roemer Bird Sanctuary and reduce sand loss. Moffatt & Nichol subsequently performed biannual post-construction survey and monitoring of the beach restoration project as a condition of the project permit.

Relevance: Coastal engineering, shoreline upgrades, habitat assessment, evaluation of restoration and enhancement opportunities, bathymetric survey/mapping.

Park Street Groin Extension, Robert W. Crown Beach, Alameda, CA.

Crown Beach, located along the southern shoreline of Alameda Island was originally designed by Moffatt & Nichol in the 1980s in response to ongoing shoreline erosion. Crown Beach was widened by a beach nourishment project that was completed in 1988 and the groins were constructed to stabilize the beach.

In a 2013 Park District project, the initial phase of the project restored the 1.8-mile beach to the original 1988 as-built width, by hydraulically placing 75,000 cubic yards of sand to create up to 100 feet of additional beach width for recreation and to buffer infrastructure. The final project phase extended the existing Park Street groin 100 feet landward to limit ingress of sandy material into the Elsie Roemer Bird Sanctuary, and to reduce sand loss from the beach. The groin extension project included precast concrete sheet-pile panels, a cast-in-place concrete groin wall and cap, timber walers, and a high-density polyethylene storm drainpipe to penetrate through the concrete groin wall.

Relevance: Coastal engineering, shoreline upgrades, bathymetric survey/mapping.

Tidewater Aquatic Center Launch Dock, Oakland, CA.

Moffatt & Nichol prepared a feasibility assessment, conceptual and final design, construction documents, and performance specifications (for the gangway and boarding float elements) for a new crew launch facility on the Oakland Estuary. The facility includes a bulkhead, shoreside promenade, shore protection, low-freeboard floating dock with guide piles, a gangway, and a separate shore-to-dock ADA-compliant gangway/ramp system. The new facility is designed to accommodate four rowing shells and a pilot's launch dock that will accommodate four skipper boats.

Moffatt & Nichol analyzed site opportunities and constraints, including environmental conditions such as wind, waves, tides, and currents, and physical conditions such as water depths, the location of mudflats, boat wakes, and shoreline stability. The assessment and subsequent design included a description of means and methods of construction, quantities of excavation, dredging, and beach fill, and preliminary opinions of probable construction costs.

Relevance: Coastal engineering, shoreline upgrades, bathymetric survey/mapping.

P250932

Ferry Point Pier, Miller/Knox Regional Shoreline, Richmond, CA.

Moffatt & Nichol provided inspection, engineering and cost estimating services to the East Bay Regional Park District in a condition assessment of the Point Richmond Pier. The assessment included a site visit and above-water visual inspection and condition assessment of the pier and piles at low tide, and evaluation of alternatives, which considered repair of the pier versus demolition.

Relevance: Coastal engineering, shoreline protection, bathymetric survey/mapping, restoration and enhancement opportunities.

Alameda Point Seaplane Lagoon, Alameda, CA.

Moffatt & Nichol designed an anchorage system for regulatory marker buoys at Alameda Point per USCG Private Aids to Navigation (PATON) requirements. The marker buoys were needed to delineate watercraft exclusion zones, passage for ferry access to Seaplane Lagoon, and an area designated to harbor seals. The work included development of a digital elevation model based on site bathymetry and LiDAR topographic data, development of wind statistics, assessment of water levels, tides, storm surge, sea level rise, tidal currents, and wave action. Detailed design information for waves and currents were obtained via modeling of the project area using a hydrodynamic model driven by input from NOAA gauges. These environmental factors were utilized for the buoy anchorage design and anchor system development.

Relevance: Coastal engineering, bathymetric survey/mapping, aquatic habitat enhancement.

Vanderslice Bridge Scour Protection, Walnut Creek, CA.

The Vanderslice Avenue Bridge provides access to the Muirwood Elementary School and crosses Sans Crainte Creek and habitat. Moffatt & Nichol completed an assessment of flood hazards at the Vanderslice Bridge based on FEMA flood hazard analysis and developed a design for scour protection to stabilize the creek bed and prevent undercutting of the bridge foundations.

Relevance: Coastal engineering, bridge abutments, evaluation of restoration and enhancement opportunities.

Heron Bay Shore Protection, San Leandro, CA.

Moffatt & Nichol was retained by the City of San Leandro to develop a concept design and alternatives analysis for rip-rap repair at Heron Bay. The work included a site visit, development of a digital elevation model based on LiDAR data and bathymetric data, assessment of water levels, sea level rise, wind statistics, wave action, wave runup, and wave reflection. The analysis evaluated alternatives including living shoreline options, cobble beach, conventional rip-rap, and trenched rip-rap. The work was submitted to BCDC for review. M&N subsequently developed a detailed design of the shore protection. Deliverables included final plans, specs, construction cost estimate, and project narrative.

Relevance: Coastal engineering, shoreline upgrades and repairs.
