We have been a part of the "redevelopment" at least as far as the fees go for 30 years. I'm totally against any further funding from the small businesses in the Park Street area. The only thing the city has done is brought gridlock to Park Street by unnecessarily extending the bus stops out in an already congested street thus eliminating much needed parking. Why didn't they clean the sidewalks instead? Why don't they have the cops patrol the street during rush hour and give tickets to people double parking. Not one person, at least 4 on any given time are blocking the lane causing more gridlock. That would bring in more money then penalizing businesses that are barely making it. I don't even know why our building is considered part of the businesses on Park St. I'd like someone to name one thing they have done to the area on Encinal Avenue.

I just want to get it on the record that I'm totally against any further funding...
