Our Mission

- * This is a movement for RESIDENTS, with RESIDENTS, by RESIDENTS.
- * We are here to ensure that only the BEST canna-business neighbors come to Alameda; those who have demonstrated community involvement, have transparent businesses practices, and pay their workers well.
- * We aim to educate our community and officials on the economic and social benefits the cannabis community and industry can offer our city.
- * We want to lift the BAN on dispensaries and cultivation, and regulate other types cannabis businesses: manufacturing, testing labs.
- * And to harness revenues generated by Alameda canna-businesses to improve our island community: schools, parks, & Alameda Point.

Why now in Alameda?

- * Raiders leaving: loss of tax revenues and jobs
- * Tax \$ spent on enforcement versus source of tax revenue to benefit enforcement and other programs
- * Cannabis is currently delivered to Alameda: sales benefit dispensary city, not Alameda
- Nearly 70% of Alameda City voters approve of Adult Use
- * Council has proven to be progressive against the federal administration; Sanctuary city etc.

Upcoming Actions

- * 4th of July float!
- Group Meetings
- * Town Hall
