STRUCTURAL GRID LINE

GENERAL NOTES

1. Dimensions are to face of finish unless otherwise noted. Dimensions noted with +/- symbol can "float" depending on actual field dimensions. Dimensions without +/- symbol are to be fixed as written. Grid dimensions are to center of structure unless otherwise noted.

2. Do not scale drawings, Written dimensions and notes to take precedence over scaled dimensions. Large scale drawings take precedence over small scale drawings.

3. New walls or footings to be aligned with existing walls. Any work relating to but not aligning with existing conditions shall be brought to the Designer's attention by the Contractor.

4. Contractor to notify Designer of discrepancies before starting work or as they arise.

5. Designer will not be responsible for any changes in plans, details or specifications unless approved in advance of construction.

6. Coordinate exact location of all electrical fixtures and outlets with Designer in field.

7. All Mechanical equipment including, but not limited to, grills, ducts, vents, registers, flues etc.. to be coordinated with Architectural drawings.

8. Contractor is responsible for locating and protecting all on site utilities and conditions as necessary. CALL BEFORE DIGGING 1-800-227-2600 (Underground Service Alert)

This Outdoor LED Wall Sconce produces 488 lumens #om only 8-Walt of electrical power. The fixture includes an adjustable infrared motion sensor (both activation distance and on-time can be changed) which automatically turns the light on when motion is detected. It also includes a photocel with manual override to ensure the light stay off during daylight hours. The sconce mounts to a standard electrical box. The LEDs are powered by a Class II Low-voltage LED driver.
