

# WIRELESS TELECOMMUNICATION FACILITY DEPLOYMENT IN CITY OF ALAMEDA CITY COUNCIL, SEPTEMBER 5, 2017

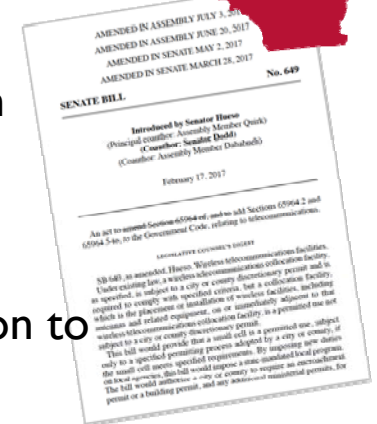

## SMALL CELL DEPLOYMENT IN THE CITY OF ALAMEDA

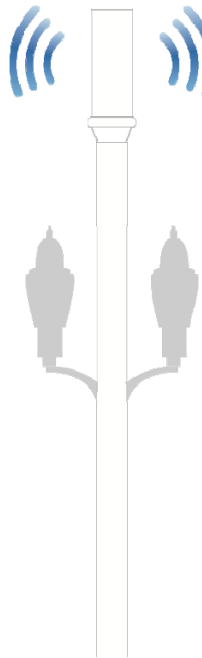

## PENDING STATE LEGISLATION

- SB 649 (Hueso) looks to further limit local control over small cell sites.
- SB 649 grants telecommunication companies the right to go on public infrastructure and takes away a City's ability to object over the time, place and manner of the installation.
- SB 649 also establishes a monetary limit on how much local agencies can charge the telecommunication companies
- SB 649 is expected to be enacted this year
- City of Alameda has opposed SB649 and submitted a Letter of Opposition to Assembly Member Bonta on July 20, 2017

# PROACTIVE MANAGEMENT OF DEPLOYMENT

- City of Sacramento selects 5 BARS as the most qualified industry expert to manage wireless telecommunication facility deployment
- Represent the city with wireless carriers
- Reduce visual blight and pole clutter
- Streamline permit review process for City staff
- Long-term solution for wireless connectivity for our residents and businesses
- Generate revenue with city owned assets
- City retains complete control over the siting of these facilities through an asset list.
