Subject: Comment on Alameda Transit Plan

Alameda City Council Members,

I learned today that a transit plan being reviewed tonight includes creating a bus lane on Island Drive. I am opposed to this plan for the following reasons:

1. Adding another lane without creating additional lanes on Otis (including the bridge) will create more traffic congestion, not less.
2. When I moved to Alameda I frequently used the bus to commute to work and it was wonderful. With the route changes made by East Bay Rapid Transit my bus route went from being a 40-45 minute ride (with a few blocks walk to the bus stop) to over an hour and 15 minute drive that required bus transfers and my driving a mile to the bus stop. I also tried taking the bus to the Bart station at Fruitvale, but the lengthy ride to Bart also made it very inconvenient to use the bus service. While I would like to have bus service available – I've stopped using the bus because it is too inconvenient.
3. Island Drive is a beautiful entrance to Bay Farm Island – creating a bus lane will destroy this feature of our neighborhood without decreasing the traffic congestion.

Thank you for the opportunity to provide this input,

Laurel Pantel

Subject: GABA signed Postcard Petitions (89-100) for inclusion into 11/7/17 Public Comment of Regular Agenda Item 6-B
Attachments: 11-7-17 GABA Petitions signed by Resident Supporters of an Alameda Shuttle_89-100.pdf

Honorable Mayor Spencer, Vice-Mayor Vella, and Councilmembers Ezzy Ashcraft, Matarrese and Oddie,

Following up on our previous Email, we respectfully submit the Attached postcard petitions (#s 89-100) received by our Organization by residents of our Community. These postcards precede previous ones delivered to City Clerk Lara Weisiger, for inclusion into this evenings City Council Meeting Public Records section of Regular Agenda Item 6-B.

We are pleased to report that the signatures count on our Change.org petition now stands at 879:

<http://chn.ge/2z2QZ2q>

Again, it is our intention to ask you to support the inclusion of our proposed Alameda Shuttle as a top priority Amendment to the Draft Transportation Choices Plan before you this evening by directing Staff to take on this initiative; we are counting on your support.

Should you have any questions regarding our proposal, please contact me at 510.301.3507 or via a Reply to this Email.

Again our thanks for your time and consideration of our request.

Sincerely,

Dania R. Alvarez

Esteemed Council Members,

As you evaluate the Draft Transportation Choices Plan, please include the GABA proposed Intracity Alameda Shuttle and its Routes into Item 18 of the noted Projects & Programs.

Surveyed residents expressed a desire for this type of transportation service.

With expected housing and business growth on our Island City an Alameda Intracity Shuttle should be an element of our transportation plan.

Thank you for your support of this omitted component to our Transportation Choices Plan!

Sincerely,

Alameda Resident and Voter

Subject: BFI Bus Lane....Whaaaaaat? You guys nuts!

What happened to the politically correct climate change that the Left always espouses? Don't we need our trees? What about the beauty of the Island... should we start looking like L.A. for the sake of three minutes? How about wasted resources? Alameda is running a deficit on Measure "A". Are we planning to take Federal Transportation Funds... another waste of Federal Government resources that could be used in our Defense Budget that is sorely lacking?

When are we going to be responsible? Let this go to a vote... it'll surely lose!... or just don't do it!

Jennifer Ott
Director of Base Reuse and Transportation Planning
Alameda City Hall
2263 Santa Clara Avenue
Alameda, CA 94501

Re: City of Alameda's Transportation Choices Plan

Dear Ms. Ott:

WETA fully supports the recommendations contained in the City of Alameda's Transportation Choices Plan. WETA staff participated on the Advisory Committee for this planning effort, and also met with City staff individually to ensure that the recommended projects and programs work for WETA.

The purpose of the Plan is to provide more transportation options for Alamedans with the goal of reducing drive alone trips at the crossings and through Alameda over the next 15 years. The ferry improvements are primarily grouped into the priority strategy that pertains to San Francisco as follows:

1) Expand transit and carpools to/from San Francisco: The high level of transit service to/from San Francisco is an amenity that draws many people to live, work and play in Alameda. Investing in improved ferry service and access to ferry terminals will result in ridership growth and will capture new residents and employees as riders. A new Seaplane Lagoon ferry terminal and service will provide ferry access to the growing west Alameda neighborhood, including Alameda Point.

WETA appreciates the focus on improving the infrastructure and operations for ferry service in Alameda, and looks forward to working in partnership with the City on implementing the Plan.

Thank you for your commitment to alternative transportation and for the staff effort to produce the plan.

Sincerely,

Kevin Connolly
Manager, Planning & Development

Alameda Mayor and City Council

City of Alameda Traffic Plan Discussion

I am writing in response to the proposed traffic plan. Our city is growing so fast and so far beyond its capacity. It seems as though the thought process and traffic plan accommodates ingress and egress, mostly for the newer developing areas. The prominent theme seems to be of bikes, walking, carpooling and BART. There does not seem to be much thought about the current residents, especially our older residents. Alamedans are really tired of hearing what we need to do for the new developments. Let's provide something for everyone! Without dwelling on this I would hope you consider something similar to our long ago red train system. Our ferry connected with the trains and residents were able to get around without many cars.

There is a very good proposal that seems to address the needs of older residents, the newcomers, those without cars, access to bus and BART, actually it addresses the transportation needs for ALL of Alameda. The proposal comes from GABA. Yes, their plan would provide transportation throughout all of Alameda for residents and businesses alike.

Looking at all of the comparison cities, I did not find one island to make a good comparison or even a valid comparison with Alameda.

Please let's not do this piecemeal, let's get it right the first time. Look at funding sources available. All of Alameda will support this plan, even at a nominal cost since ALL OF ALAMEDA will benefit. For once in a very long time, let's think of everyone.

Sincerely,

Denine H. Keltner

Subject: CONCERN! Transportation Plan before the CC Tuesday will affect Bay Farm DO NOT APPROVE

Dear Madam Mayor, Vice Mayor, Council Members;

I was just made aware today. I find it very interesting that this is a proposal being considered that I've heard absolutely nothing about until now— and, our Council Members haven't heard from HBI residents about this AND it will save buses only 3 minutes if true?

PLEASE DO NOT APPROVE THIS

those of us who reside on
Bay Farm are
extremely
concerned about this
(well those who have actually heard anything about this proposed ridiculous
Transportation Plan for BFI
which if approved, will remove the median along beautiful Island Drive and replace it with an express
bus lane one way.
The Council will vote to approve or not this Tuesday November 7th

He says if the bus is allowed to precede(a special traffic light for the bus) the cars at Doolittle and
Island then
the bus could save time. How much time? Maybe that where the 3 minutes savings comes from on
the Plan.
However, what happens after Doolittle and buses going onto the narrow streets of High st, Fernisde
and even Otis.
Are these buses themselves going to be a hazard if there are many of them? if there are not many of
them, then how much good could this plan do for commuting

not to mention distroying the culture of our neighborhood by removing the marvelous 40+ year old
trees which we all know, once they are gone, no going back.

Subject: 11-7 Nancy Gordon—wants to go on record to Support Save Alameda's Working Waterfront (SAWW)* on Tuesday, Nov. 7th at council mtg

Please distribute this to all council members. This email is to state my support for SAWW. Also, I'm not in favor of removing the planter strip on Island Dr. We need the trees and planting's for ecological reasons as well as adding beauty and serenity in this day and age of lots of ugly planning and packing in as many people as possible on our limited-space Island.

In a disaster, we'd be mightily stuck here already, with even more people who aren't about to give up their cars! Also, our cyclists need to know the rules. I observe many don't follow safety rules, and am concerned about accidents. One friend lost her bicycling son a few years ago. Nancy Gordon. 1021 Union, Alameda

Please join Save Alameda's Working Waterfront (SAWW)* on Tuesday, Nov. 7th at the Alameda City Council meeting which begins at 7:00 p.m. to stand in support of SAWW's brief presentation during the Non-Agenda Public Speaking portion of the meeting which will take place at about 7:15.

SAWW will be asking the City Council to re-zone the western portion of Alameda Marina back to Industrial as it had been prior 2012. (Currently zoned Mixed Use with a Multi-Family Overlay to allow for 396 housing units to be built.) Developer Bay West intends to build nearly 800 housing units on the property adjacent to the Tidelands Trust land at Alameda Marina.

The SAWW speaker will ask people in the audience to stand in place to show the council that a large number of their constituents want to save jobs, commercial maritime business, and recreational boating for the middle class in Alameda. It is imperative that SAWW has a large number of supporters.

* Save Alameda's Working Waterfront (SAWW) was formed two years ago to stop housing developer Bay West from bulldozing 30 historic WWII buildings at Alameda Marina that housed 84 businesses and employed 250 people

with wages adequate for Alameda residency. Many of the businesses support the maritime needs of recreational boat owners for repairs and supplies.

Importance: High

Honorable Mayor Spencer,

On behalf of the Greater Alameda Business Association (GABA), and in anticipation of this evening's City Council Meeting, please be so kind as to review the Attached two Change.org Petition files pertaining to the Draft Transportation Choices Plan (TCP) coming before you for approval this evening under Regular Agenda Item 6.B. (File#2017-4774) .

One of the Attached .pdf files contains signatures of 856 individuals supporting GABA's proposal of an Alameda Shuttle (the count is now at 871), while the second .pdf file contains comments made by some of the signers of the Petition.

<http://chn.ge/2xU5bqg>

We join with a coalition of Alameda business and community organizations in requesting the Transportation Demand Management (TDM) Draft Plan being considered for adoption be amended to reflect the desire of city residents to implement a comprehensive shuttle solution as a top priority of the city.

We believe the current TDM Plan falls short of pursuing the wishes of residents as expressed in surveys and workshops leading to the creation on the current document, as an Alameda Shuttle generated the highest positive response of any proposed solution.

Specifically, we support a service that includes the following:

- Frequent service, with 10-minute headways during peak hours; no more than 15-minute headways during most business hours, and 30-minute headways during off-peak hours
- Free-to-the-end-user, as a system without fare boxes removes a significant barrier to ridership and indeed encourages greater use
- Routes that serve schools, parks, senior facilities, business districts large and small, and are within three blocks or less of most Alameda residences
- Clean fuel vehicles, with accommodations for bicycles
- Connections to regional transportation hubs – BART and the ferry terminals – to not only ease congestion at our existing choke points, but also encourage ridership by visitors and those who commute to work to our island.

This evening, we will be asking you to support our request for the above amendment to the TCP by directing Staff to take on this initiative; we are counting on your support.

Should you have any questions regarding this request, please contact me at 510.301.3507, or Reply to this Email.

Thank you for your time and consideration of this request.

Sincerely,

Dania R. Alvarez

Name	City	State	Zip	Country	Date	Comment
Natalie Gelman	Alameda	CA	94501	US	10/19/17	The best idea for Alameda. Reduce traffic. Encourages staying with Alameda businesses.
Isadora Alman, MFT	Alameda	CA	94501	US	10/19/17	Less traffic? Keeping shoppers within Alameda? How could that possibly be bad? Public transportation is an essential service. It helps reduce traffic, improves the environment, and makes it possible for people without private transportation to get around, even supporting local businesses.
Alison Harris	Alameda	CA	94502	US	10/19/17	Its needed
Douglas Korach	Alameda	CA	94501	US	10/19/17	I walk a lot in my neighborhood (North end of Park St) but I would visit businesses in other areas like Webster more if there were a convenient shuttle. I also take BART frequently, and a shuttle would save me a drive and keep my car out of the busy Fruitvale garage.
Jens Alfke	San Jose	CA	95126	US	10/19/17	Emeryville has a shuttle and it works!
Dona Fuller	Alameda	CA	94501	US	10/19/17	There are too many cars on the road in Alameda, we need shuttles!
Michele Kuttner	Alameda	CA	94501	US	10/20/17	Alameda is the perfect place for this kind of transportation solution. I can't wait to use the shuttle to get to work, run errands and enjoy my favorite local venues around our beautiful city!
Sarah Ortega	Alameda	CA	94501	US	10/20/17	It would help the congestion around Alameda! Traffic congestion has already grown into a major problem. We need realistic solutions before the current housing boom is completed, instantly increasing our population.
Vickie Maloney	Alameda	CA	94501	US	10/20/17	Because it's the right thing to do
Michael Deasy	Alameda	CA	94501	US	10/20/17	Good ideas need community support.
Jake Thompson	Alameda	CA	94501	US	10/20/17	Public transport !!! Fewer cars, more buses and bikes, we can lead the way in the East Bay.
Tracy Wyman	columbus	OH	43085	US	10/20/17	For a town as compact as Alameda but so highly populated, this idea would help eliminate the increasing traffic problems.
Amy Lee	Alameda	CA	94502	US	10/20/17	Yes please! The parking at the ferry terminals is disastrous and this would help so much. It would also be great for kids to get to and from after school activities. I fully support this idea!
Abigail Wolf	Alameda	CA	94510	US	10/20/17	Best idea I've heard in a long time. This is long overdue!
Abigail Wolf	Alameda	CA	94510	US	10/20/17	We need this, Alameda! Let's leave our cars at home!
Cynthia Schaff	Alameda	CA	94501	US	10/20/17	Yes! Let's reduce traffic and encourage public transportation, please!! It'll be cleaner, and for the cyclists, safer! It's hard to believe this island DOESN'T have a shuttle.
Cynthia Schaff	Alameda	CA	94501	US	10/20/17	If we want people to get out of their cars, and they still need to get where they want and need to go, then make it easy to do so. Never mind the impossible parking situation at the ferries and BART, which makes a really barrier to folks!. Help us all help each other (and stay our our cars!)
Andrea Hamilton				US	10/20/17	As much as people want to maintain the lifestyle that they have enjoyed for years, driving alone anytime they want, this is not sustainable. We need an alternative.
Scott Sheppard	Alameda	CA	94501	US	10/20/17	I'd pay a parcel tax to support this. I'd use it. My elderly mom would use it a lot. Sales tax, could also fund it after initial vehicles purchases. Totally doable. Start small and add busses each year.
Wendy OMalley	Alameda	CA	94501	US	10/20/17	

					This is a great idea. Please keep me in the loop as you gather additional information on how this would work, costs, etc. I know Walnut Creek has one of these so that might be one place we can look at for a sense of the mechanics of this. Thanks for engaging
Michele Ellson	Alameda	CA	94501 US	10/20/17	on this!
nicole van alstyne	alameda	CA	94501 US	10/20/17	I can
Allen Yip	Alameda	CA	94501 US	10/20/17	This would be awesome.
Roberta Miller	Alameda	CA	94501 US	10/20/17	It would be great to get more cars off Alameda streets!
Jennifer Watt	Alameda	CA	94501 US	10/20/17	This is important in my community and needs to address the need a of the community it will serve!
Leena Lim	Alameda	CA	94501 US	10/20/17	Makes perfect sense. Happy and grateful someone stepped up and initiated this
William Pettus	Berkeley	CA	94702 US	10/20/17	Reduce traffic congestion and pollution. Help people without cars get to work safely and on time.
Alissa Van Nort	Oakland	CA	94618 US	10/20/17	Public transit matters.
Lu Burton	Alameda	CA	94501 US	10/20/17	This would be awesome
Anne spanier	Alameda	CA	94501 US	10/20/17	Alameda is ahead of the curve with clean energy sources.
danny ayllon	Alameda	CA	94501 US	10/20/17	However, automobiles are the culprit in keeping our air behind the curve. I would ride this shuttle around town.
Sally Carrocino	Los Angeles	CA	90069 US	10/20/17	Its a great idea!!
Laina Levy	Alameda	CA	94501 US	10/20/17	Sally Carrocino
Jason Hannigan	Alameda	CA	94501 US	10/20/17	Alameda needs better public transportation to encourage fewer people to drive!
Anthony Koperski	Hayward	CA	94544 US	10/20/17	Excellent idea. A similar concept made Emeryville so much more livable and accessible.
sascha stallworth	Alameda	CA	94501 US	10/20/17	Cool
john ngu	Alameda		94501 US	10/20/17	Its needed !!
Paul Anderson	Oakland	CA	94607 US	10/20/17	Patiently waiting to hop on one of these shuttles!!
Doug Waite	San Francisc	CA	94115 US	10/20/17	Shuttles make great super-local transit solutions in multiuse areas such as Alameda.
Mike Cooper	Alameda	CA	94501 US	10/20/17	Given the uniqueness of our island, this is a wonderful idea.
Victoria Salgado	Alameda	CA	94501 US	10/20/17	It's about time!
Sarah Baughn	Berkeley	CA	94707 US	10/20/17	A free shuttle would help reduce traffic congestion on the island. I am a frequent visitor to Alameda and having a shuttle will improve the quality of life for all visitors and residents.
Jen Crook	Alameda	CA	94501 US	10/20/17	It is important for Alameda to provide more transit opportunities for citizens as we increase population over the island.
elaine louie	Alameda	CA	94501 US	10/20/17	Great Idea! Among the many possible uses-- it is a perfect way for our community of kids to get to and from school.
Emi Johnston	San Francisc	CA	94107 US	10/20/17	Alameda must increase transit opportunities for citizens as there is a huge increase population over the island
Eric Hicks	Austin	TX	78741 US	10/21/17	because alameda is my home away from home. Who wouldn't want to support better transportation options on the island
Christine Bauer	Alameda	CA	94501 US	10/21/17	The transportation solution for Alameda absolutely hinges on convenient and reliable connector solutions to ferry, transbay bus, and BART terminals
Ann Wlad	Alameda	CA	94502 US	10/21/17	It's the green thing to do! Get more cars off the road.
Eileen Wilson	Alameda	CA	94501 US	10/21/17	Sounds like a great idea
Zoraida McNulty	Alameda	CA	94501 US	10/21/17	It will keep the city streets cleaner and with less traffic congestion.
Tim Martin	Alameda	CA	94501 US	10/21/17	Would love to use my car less
Chris Bailey	Alameda	CA	94501 US	10/21/17	Transportation and traffic is becoming the number one issue on this island.
Taras Fossett	Fort Wayne	IN	46802 US	10/21/17	I support the cause.
Marie Lopez	Alameda	CA	94501 US	10/21/17	It will help ease the parking and traffic issues on Main Street during rush hours.

Natalie Guishar			US	10/21/17	Natalie Guishar Especially for Ferry increased ridership and lack of parking not to mention the morning school traffic is crazy. Great for students as well
Deborah Rocha	Alameda	CA	94502 US	10/21/17	
Mindy Johnson	Charlotte	NC	28277 US	10/21/17	It needs to happen!
Laurie Slez	Alameda	CA	94502 US	10/21/17	Traffic is terrible.
Cheri Johansen	Oakland	CA	94619 US	10/21/17	Reduce number of vehicle miles
Philip Kaake	Alameda	CA	94501 US	10/21/17	I want a free shuttle in Alameda
Joy Smalley	Alameda	CA	94501 US	10/21/17	I absolutely love this idea!
Lori Keep	Alameda	CA	94501 US	10/21/17	Lori Keep Public transit is good for the environment and our community. It will also help the parking situation which is becoming increasingly worse!
Demeter Lamb	Alameda	CA	94501 US	10/21/17	
Emily RossBrown	Alameda	CA	94501 US	10/22/17	It just makes sense!!
Alicia Heinz	San Francisc	CA	94115 US	10/22/17	Great idea! A shuttle should be consistent and every day of the week. I cannot understand why transit doesn't meet the ferry like it used to.
Irene Thomas	Alameda	CA	94501 US	10/22/17	
Irene Thomas	Alameda	CA	94501 US	10/22/17	Let's have a shuttle meet each ferry. This little city is one in a million and residents absolutely require the needs outlines and
Marsha Addiego	Marina	CA	93933 US	10/22/17	I'm signing because I have family and friends in the Alameda and greater SF area that deserve better transportation.
Claire Burgardt	Indianapolis	IN	46268 US	10/22/17	I'm signing the petition because my daughter and grandson are residents of Alameda and use public transportation on a daily basis. The service by BART and the local buses is great, but this looks like it could be a significant improvement. Thank you.
J Phillip Jackson	Fort Wayne	IN	46802 US	10/22/17	As someone who was born and raised in Alameda and still maintains close ties with the city, I fully support this amendment to the TDM Draft Plan
Lance Miller	San Mateo	CA	94401 US	10/22/17	I support all options to decrease car traffic: LimeBikes, shuttles, dedicated bus lanes, dedicated bike lanes.
Kevis Brownson	Alameda	CA	94501 US	10/22/17	
Evelyn Kennedy	Alameda	CA	94501 US	10/22/17	Evelyn Kennedy
Suzanne lindsey	Lahaina	HI	96761 US	10/22/17	Better than a bike! I'd use this service all the time.
Peter Berzins	Alameda	CA	94502 US	10/22/17	A Shuttle is Greatly Needed
Anne McDonald	Alameda	CA	94501 US	10/22/17	We need this type of alternative transportation on the island We need more transportation alternatives, especially to and from the ferries.
Anne McDonald	Alameda	CA	94501 US	10/22/17	
Jennifer Kennedy	San Francisc	CA	94130 US	10/22/17	This would be a great idea for Alameda. Id use this instead of driving to places in and around Alameda. Alameda is in need of an intracity shuttle. It makes a lot of sense for many that have difficulty getting around on the Island and much needed for those working And shopping on the island.
Joe LoParo	Alameda	CA	94501 US	10/22/17	Opens up many options other then vehicles for all
Katherine Kaldis			US	10/23/17	This looks great! Thank you for coming up with this!
Robin Fernandez	Alameda	CA	94501 US	10/23/17	This would be great to promote One Alameda!
Susan Battersby	Alameda	CA	94501 US	10/23/17	This would be so convenient.
Lesleigh Franklin	Oakland	CA	94619 US	10/23/17	There is already too much traffic in Alameda
arza Ralph	Alameda	CA	94501 US	10/23/17	This would be a wonderful, carless way to get around.
Audra Hall	Surprise	AZ	85379 US	10/23/17	My friends are affected by this service proposal.
William Collins	ALAMEDA	CA	94501 US	10/23/17	I live in Alameda, and my wife doesn't drive.
Heather Chiu	Alameda	CA	94502 US	10/23/17	Parking and air quality will both benefit from this!
Leslie Walsh	Alameda	CA	94501 US	10/23/17	Long overdue

Jan Schlesinger	Union City	CA	94587	US	10/23/17	With all the influx of residential housing, we need more options for easy transport around and off the island. A shuttle has a lot of negative\$\$ for the transportation planners but is a priority among potential users. Should be a higher priority than water taxis
Darcy Wheelles	San Francisc	CA	94111	US	10/23/17	The more transit options the better
						Yes! I've spent hundreds of dollars in Lyft fees to BART, trying to get to my office in SF in time for meetings, and back in time to pick up the kids at 5pm. I can't use the ferry because it's too infrequent and it's already expensive without a bus or Lyft fee. We moved here from Emeryville and their free shuttle, Emery-Go-Round, was such an amazing perk -- I'd feel so much more free to roam in Alameda with a service like this!
Milan Lee	Oakland	CA	94608	US	10/23/17	To keep the community air clean and keep my grandchildren commuting safely.
Roberta Swanson	Grass Valley	CA	95945	US	10/23/17	Great idea!
Susan Natt	San Francisc	CA	94104	US	10/23/17	I have always walked the island for years. But with two little ones, I was shocked to find out I had no way to effectively reach the main ferry terminal, Bladium or anywhere in the west end of the island without catching at least two buses. I live on the east end and was forced to trek several blocks on foot with two toddlers (ran to catch two buses at separate stops as they both took right turns without bothering to stop for pedestrians). We were waiting at the crosswalk both times and missed them both because drivers didn't bother looking up. Long story short, I could run with a stroller faster than it takes to catch public transit across the island. Most routes focus on getting on/off the island and do not cater to the numerous residents who live and work and play here, never wanting to leave. Please, please, please add a shuttle that crosses the island at least between main and high st instead of park and Webster. And please avoid the need to transfer!!! Make it a circular loop or something!!! Also, keep
Amadea Azerki	Alameda	CA	94501	US	10/24/17	Common sense idea
Gregory Hartman	Alameda	CA	94501	US	10/24/17	Our island city needs this!
Catherine Kassirer	Alameda	CA	94501	US	10/24/17	This is a great approach!
Marcy Voyevod	Alameda	CA	94501	US	10/24/17	I shared on Facebook on the Alameda 94501 page. Hope it helps.
Allison Martin	Alameda	CA	94501	US	10/24/17	I think it's a great idea.
Anthony Cortez	Seward	AK	99664	US	10/24/17	Property owner, part time Alameda resident. Alameda is building too many houses. no Parking and no room to
Jean Reynier	Alameda	CA	94501	US	10/24/17	BREATHE>>. YUK !!!
Joyce Edwards	Toronto		M6G	Canada	10/24/17	Alameda needs public transportation at Main St. Ferry. Parking is
John Chard	Vallejo	CA	94590	US	10/24/17	terrible and limited. Uber gets expensive.
						It's a great idea.
						There is so much resistance to any change in this city, but long ago we had a trolley service from east end to west, that connected up with public transport to other cities. AC Transit is ok but inadequate. Alameda's not that population-dense but we are car-dense!
Alana Dill	Aameda	CA	94501	US	10/24/17	Traffic has become a huge problem in the entire Bay Area. Let's see what we can do to help reduce it in our lovely town. I would
Ronald Upp	Alameda	CA	94501	US	10/24/17	use it to get to the ferry.
Heidi Collins	Alameda	CA	94501	US	10/25/17	We need more public transportation on and off the island.
						I support public transportation options. They take cars off the street and keep our air cleaner. And a free shuttle would encourage riders to ditch their cars . I would pay higher taxes for this. I don't know why anyone would be against this.
Jonathan Acker	Alameda	CA	94501	US	10/25/17

Subject: Transportation Issue--Island Drive

It has come to my attention that there is a transportation plan to replace the median on Island Drive with a "bus only" lane. As a long-time Bay Farm Island resident, I am totally opposed to any ideas to destroy the current lovely entrance to our part of the city of Alameda. Please do not consider this outrageous plan.

Subject: Remove the median trees on Island Drive?!!!

Dear Mayor Spencer and City Council Members,

I'm writing to voice a strong opinion against removing the median on Island Drive in order to have a bus lane. The small reduction in commute time this bus lane would provide cannot justify the elimination of the beautiful huge pine trees that make the entrance to Harbor Bay so gorgeous. Natural beauty is of great VALUE - it gives us all a sense of peace and joy in being alive, and in the business sense, it adds value to our property. Extra lanes of traffic do not add value to our lives. We don't want a 'freeway' going through our neighborhood!!

Living in an island community means we all have to drive over bridges, and this can create traffic. But that's a small price to pay for the beauty around us. That is why my family moved to Harbor Bay 21 years ago - because it's BEAUTIFUL HERE.

We urge you to vote "NO" on this portion of the Transportation Plan! **Please hear the voice of Harbor Bay residents who want to maintain the quality of life in our community. Thank you.**

Sincerely,

Vicki and Tom Varghese
39 Stone Harbor

P.S. We would have written a lot sooner about this issue, but only heard about it from a neighbor two days ago - why hasn't this been more widely publicized so more people could voice their opinions?

Subject: Comments on the Draft Transportation Choices Plan (duplicate)

Mayor, Vice Mayor, and Council Members,

The draft minutes of the September 25, 2017 Planning Board meeting shows Board Member Teague said getting everyone a \$70/year EZPass for AC Transit would be a real difference maker.

I would like to elaborate on this comment.

Encouraging and enabling as many Alameda residents as possible to regularly use AC Transit instead of their vehicles has the potential to dramatically reduce both the estuary crossings and within Alameda trips. The intent is not that Alameda should pay for these passes but for Alameda to enable Alameda residents to combine and obtain EZPasses at the same type of rates as corporations. From my conversations with neighbors and friends, I believe many Alameda residents would be willing to pay for this type of pass.

We need the City or some other organization to negotiate with AC Transit on how many would be a minimum and what the cost would be for participants. AC Transit lists \$66/year for an employer with 10,000 employees. We should be able to take advantage of the pooling of residents in Alameda to use AC Transit instead of their vehicles. While it probably won't be \$66 as the AC Transit builds into the price an assumption that a certain percentage of users won't use the system, there is some number that should work and we should explore that option as soon as possible.

The initial signup of residents could be done as a kickstarter campaign which doesn't collect any of the money unless a certain number is reached.

Thank you for your consideration and hopefully support of this type of option.

Alan Teague
Alameda Resident

November 7, 2017

Members of the Alameda City Council,

Bike Walk Alameda members care deeply about the direction of Alameda's transportation network. We appreciate the direction and the distance the revised Transportation Choices Plan has gone. The time has come to finalize this plan, approve it, and get to work addressing our transportation, safety, and climate problems.

There are many excellent projects in the plan that we look forward to seeing implemented. In addition to supporting the big picture vision outlined in the Alameda Transportation Choices Coalition letter, there are critical, immediate actions required to make it safer and easier for Alamedans to access transit by bicycle.

1. Interim bikeway on Main St.- The current conditions for bike riders attempting to efficiently reach the Main St. Ferry Terminal are dangerous. This street needs immediate attention for traffic calming and bicycle access and safety. It does not need to be a multi-million dollar re-engineering tied to larger redevelopment projects. Nor does it need to wait for WETA to complete and implement their station access plans. **We ask that you decouple and emphasize interim bike lanes from the terminal access project. Further, we ask that you give direction to staff to bring the already existing plans up for funding consideration in the upcoming one year budget review process.**
2. Fruitvale Bridge- Interim bike lanes to Fruitvale BART. We look forward to long term projects like a multi-modal lifeline bridge. However, we need to improve access and safety to Alameda's closes BART station now. There are options for restriping the bridge and approaches that would greatly improve the current situation. Oakland is doing their part to provide a high quality bikeway on their side. We need to close this gap. **We ask that you add interim bike lanes for Fruitvale Bridge and its approach. Direct staff to review the current alternatives and consider funding the project as part of the budget review process.**

We encourage City Council and staff to take an aggressive and flexible approach to our streets. Bike Walk Alameda looks forward to partnering with the City on the Bike and Pedestrian Plan updates, as well as in creating a Vision Zero Plan. Our hope is that we can aggressively implement these priorities without having a bias for the status quo. The current situation leaves residents afraid to cross the street or take active modes of transportation. Let us be bold and unafraid of experimentation.

Respectfully,

Brian McGuire
President, Bike Walk Alameda

Subject: Fwd: Removal of portions of Island Drive

Please pass on to the Mayor and City Council members for consideration at Tuesday 11/7th Council Meeting.

Thank you

Please don't burn the furniture to keep the house warm!

I use old adage to make point:

Removing a beautiful amenity to our City like the Island in the center of Island Drive on Bay Farm Island (BFI), would be a travesty! Instead of a lovely tree-lined entrance to this beautiful portion of Alameda, we would turn it into the equivalent of a freeway off-ramp!

Everyone on BFI deals with the commute hour traffic leaving and entering during the business week. Many make a point of leaving earlier or returning later to avoid the sluggish portions. But to make such a radical fix as removing the soft-scape of the tree-lined center divide, would be the equivalent of allowing people to concrete over their front lawns to ease parking shortages, or take away recreational places like parks and public walkways in order to ease some other aspect of traffic congestion. The element of aesthetics must be maintained, so that our lovely City doesn't lose its charm for "industrial strength" traffic control. Please save our "Island Drive"!

Subject: Resident comment regarding Median on Island Drive plan before CC

To: Alameda City Council Members

From: Susanne Hamilton, 625 Centre Court, Harbor Bay

I have been a resident of Harbor Bay for the last 25 years.

I understand there is a plan to replace the median on Island Drive with an express bus lane. I just found this out from a neighbor!!! I do not understand why residents were not informed of this very critical change to our neighborhoods so that we could give input!!!!

I am ABSOLUTELY AGAINST the removal of the median in favor of an express lane. Another lane of traffic would add more noise on Island Drive, which is right next to our homes!!

Also, what is the point of an express bus lane anyway?? Island Drive is a very short road and there aren't that many buses travelling it. Even if there was such a short bus lane, the buses would have no choice but to join the rest of the traffic on Doolittle, Otis or Fernside. Where are the savings in time for the buses???

Why take away our nice median that makes for a pleasant entrance to Bay Farm Island? Why spend money on such a senseless project?

Please VOTE "NO" on this proposal!

Thank you!

Subject: Fwd: TransportationPlan affecting Bay Farm Island.Please forward to Council Members

Hello Bay Farmers/Harbor Bay Residents and all Alamedans who appreciate Island Drive

I'm hoping many of you will write a brief email to the City Council before this Tuesday regarding the proposed Transportation Plan for Bay Farm.

I'm including the email I just wrote to them below for an idea or 2 on what you might(or might not) like to say.

It's fine to be brief; however, the fact we're writing is important!

Address: Honorable Mayor and City Council Members care of lweisiger@alamedaca.gov

Honorable Mayor and Council Members,

I have not read the entire proposed plan to lessen traffic issues in the City.

However, I'm aware that on Bay Farm Island, the plan calls for a one way express bus lane along Island Drive which would necessitate taking out part of the beautiful median and destroying 30 year old trees.

And, I understand that the net times savings of this huge and costly endeavor, would be a measly few minutes,

maybe only 3 minutes or so the plan says.

I've lived on Bay Farm for 40 years. Once you drive onto Island Drive from Doolittle, one's blood pressure goes down largely because of the median with its huge trees is so relaxing. Cars tend to slow down and drive responsibly. Considering the car traffic, we have very few accidents. Put in an express lane and remove the median and forget the relaxed driving.
I believe we will have more accidents.

In conclusion, I am against this project because it would be detrimental to the ambience and quality of life on Bay Farm and the offset savings in time will be minuscule in comparison.
Please take this costly, unnecessary portion regarding BFI out of the Transportation Plan.
The publicity around this Plan has come up only recently, so many residents are not aware of it.
If they were aware, I guarantee you they would be against it.

Additionally, why is the City not currently watering this median? Are you getting ready to partially destroy it w? What is the reasoning behind not watering the beautiful trees on the median?
Myself, and many other residents, want an answer. Some trees appear to be dying after this extremely hot summer and fall. I think its unconscionable that the City is not watering.
Sincerely,
Reyla Graber

Subject: Transportation Plan Affecting Bay Farm Island

Importance: High

Honorable Mayor Spencer and City Council Members:

It has come to my attention that there is a proposed plan for Bay Farm Island to remove the median strip on Island Drive and replace it with a one-way express bus lane. This would only save approximately three minutes of time in bus transportation.

I have lived on Bay Farm Island for 35 years. I am totally against such a plan. Bay Farm Island is a lovely residential neighborhood. The median strip adds to the natural feel and atmosphere of the neighborhood with a mature growth of trees. Bay Farm is not busy downtown San Francisco, where such bus lanes are utilized. Also worth consideration is that by speeding up bus and other traffic, more traffic accidents may occur. This could create problems around the Amelia Earhart School on Island Drive where many young children go to and from school.

So please vote against any plan to remove the median strip on Island Drive for the sake of adding a bus lane. This does not keep with the character of the neighborhood. It creates a safety issue around the Earhart School. This is a bad use of money for the sake of saving three minutes. It seems that there are many other city projects where this money could be more wisely spent.

Thank you for your consideration on this important issue.

Sincerely,

Diane M. Molter
Resident of Bay Farm Island

Subject: Please Protect Our HBI Median Strip

Dear Mayor Spencer and Alameda City Council Members:

My family and fellow Columbia neighbors were stunned to recently learn of the Planning Commission's proposal to modify the median strip on Island Drive with an express bus lane.

It is my opinion that this is a short sighted and unnecessary project. Several reports state that it would save only a mere three minutes of commute time for bus commuters and would likely further clog the connecting streets that lead to the main island. And removing the stately old trees and building a short stretch of asphalt would destroy a major esthetic and iconic component of our Harbor Bay neighborhood.

You are strongly encouraged to vote for protecting our tree lined median strip and oppose the construction of this expensive, and ugly bus lane project that would detract from our quality of life.

Please demand that the Planning Commission and the Alameda City staff go back to the drawing board and come up with other traffic management alternatives. Thank you.

Sincerely,

Tom Krysiak

510 735 5856

There are already major chokepoints trying to leave Alameda via High St. Even if you give an express lane for the bus, where is it going to go any faster when it gets to the bridge???

The bridge lanes are not going to change...if passed, the loss of the character of our own community notwithstanding, MORE traffic issues will arise. Where is the study regarding this? Can I find it publicly accessible?

I vote NO changes to Island Dr for a traffic issue that is going to cause MORE PROBLEMS than it resolves...who is sponsoring this idea?

Thanks,

David Berks

Subject: Future of Island Drive

Dear Mayor and Council Members,

Island Drive, entrance to safe harbor

When we escape from 880, and all the pressure, speed, noise, and stress of cities and highways, we enter Bay Farm Island on Island Drive. As we progress down this beautiful drive, we feel more peaceful and safe and our blood pressure drops. It is like returning to safe harbor after storms at sea.

Island Drive has a wide median with beautiful trees. It inspires a feeling of peace and relaxation and appreciation of beauty. Most drivers slow down. They generously give way to cars changing lanes. Driving stops being competitive and defensive.

My visitors invariably say, "What a beautiful place."

Why would the Council even think of ripping out this median and destroying these trees? For what? To save drivers an insignificant couple of minutes? For that the beauty and peace of our little island should be attacked?

Are there really so many buses using Island Drive, and are their schedules so pressing that they must have a separate lane? For just two short periods a day when commuting and school traffic is heavy? Is time more precious for bus passengers than for all the rest of us who must be patient with rush hour?

Suppose buses can go down Island Drive at a faster pace. What happens at the bottle neck, the intersection with Doolittle? Will there be special bus lanes put in? Will the bridge be widened to give buses their own lane? Not likely.

Please save the median, and also take better care of the trees there. They are languishing for lack of water, and some are dying. I would hate to think that it is a deliberate effort to kill these trees in order to make removal of the median more acceptable. That would indeed be despicable..

Sincerely,

MARY T ANDERSON

Subject: Bus lane on Bay Farm

I am a home owner on Bay Farm.

I've just learned of the proposed bus lane on Island Drive. It would mean killing tree roots and destroying the beautiful boulevard down Island Drive. A bus lane won't help the drivers who need to get somewhere where the buses don't run, or don't run frequently enough. It would probably just make it worse for the commuters and they would still need to merge into two lanes once they get past Island Drive.

I'm totally against this proposal.

Subject: FW: ALERT: Transportation Plan before the CC Tuesday will affect Bay Farm

Importance: High

I can't be at the council meeting on Tuesday but I am very concerned about the proposal detailed below. I live at Centre Court and we enjoy the beauty of the median from many of our units. Also I never see the number of buses during the times that I leave my home from 7am to 9:30am that would warrant such a change. As it is it already takes 15 to as long as 30 minutes to get from my home to Fernside and this would only exacerbate this condition. I will NOT vote to reelect any council member who approves this measure.

Please forward to Friends and Neighbors

Dear Walt,
Just spoke with Frank Matarrese.
Neither, he, nor the Council, have received ANY emails from BFI residents regarding the John Knox White endorsed Transportation Plan for BFI **which if approved, will remove the median along beautiful Island Drive and replace it with an express bus lane one way. The Council will vote to approve or not this Tuesday November 7th**

He says if the bus is allowed to precede(a special traffic light for the bus) the cars at Doolittle and Island then the bus could save time. How much time? Maybe that where the 3 minutes savings comes from on the Plan. However, what happens after Doolittle and buses going onto the narrow streets of High st, Fernside and even Otis.

Are these buses themselves going to be a hazard if there are many of them? if there are not many of them, then how much good could this plan do for commuting?

If folks on Bay Farm are concerned about this at all, they need to write emails this weekend to the Council and show up to speak on Tuesday at the CC meeting at City Hall.

Send emails in care of lweisiger@alamedaca.gov

Subject: For all City Council Members - re: transportation plan

Council Members:

We are 30 year inhabitants of harbor bay and are totally opposed to the creation of a bus lane on Island Drive. The entrance to harbor bay/bay farm island is beautiful and the median strip makes it so. Traffic getting off the island is already awful. There has been no study done to see if a bus lane would encourage drivers to not drive and take the bus.

We feel VERY strongly about this.

Subject: TransportationPlan affecting Bay Farm Island.Please forward to Council Members

Honorable Mayor and Council Members,

I have not read the entire proposed plan to lessen traffic issues in the City.

However, I'm aware that on Bay Farm Island, the plan calls for a one way express bus lane along Island Drive which would necessitate taking out part of the beautiful median and destroying 30 year old trees.

And, I understand that the net times savings of this huge and costly endeavor, would be a measly few minutes, maybe only 3 minutes or so the plan says.

I've lived on Bay Farm for 40 years. Once you drive onto Island Drive from Doolittle, one's blood pressure goes down largely because of the median with its huge trees is so relaxing. Cars tend to slow down and drive responsibly. Considering the car traffic, we have very few accidents. Put in an express lane and remove the median and forget the relaxed driving.

I believe we will have more accidents.

In conclusion, I am against this project because it would be detrimental to the ambience and quality of life on Bay Farm and the offset savings in time will be minuscule in comparison.

Please take this costly, unnecessary portion regarding BFI out of the Transportation Plan.

The publicity around this Plan has come up only recently, so many residents are not aware of it.

If they were aware, I guarantee you they would be against it.

Additionally, why is the City not currently watering this median? Are you getting ready to partially destroy it w? What is the reasoning behind not watering the beautiful trees on the median?

Myself, and many other residents, want an answer. Some trees appear to be dying after this extremely hot summer. I think its unconscionable.

Sincerely,

Reyla Graber

Subject: Transportation plan endorsed by John Knox White

November 5, 2017

Honorable Trish Spencer, Mayor of Alameda Honorable Alameda City Council Members

Dear Mayor Spencer and City Council Members:

I am extremely concerned about the proposal to remove the median, and the trees that grow on it, along Island Drive on Bay Farm Island and replace it with an express bus lane one way. I do not see how this will save a significant amount of time compared to losing our beautiful trees that provide a very inviting entrance to Bay Farm Island. Even with a special signal which gives the express buses a head start over the other cars, once they enter the Bay Farm bridge they are part of the regular traffic. How many express buses are there? Are we talking express buses only or all buses which serve Bay Farm? If we are talking express buses only they run for a limited time only during the morning and evening commute.

I strongly urge the Council to have a Traffic Engineer thoroughly study the traffic patterns on Bay Farm Island to determine precisely how this plan would impact the commute into and out of Bay Farm Island. Once the median and trees are gone, they are lost forever. Please do not let this happen. Please vote no on this proposal until more definitive information is determined.

Thank you.

Subject: Transportation plan on Bay Farm Island

We have just now become aware of the plan to eliminate the median on Island Drive and replace it with an express bus lane. We have heard that there has been no feedback from BFI on this and suspect that's because we haven't been informed about it.

We are vehemently opposed to this plan. First, the median adds to the aesthetics of the neighborhood -- a bus lane will make Island Drive look like a freeway. Secondly, we suspect that this will likely increase traffic on Island Drive, not decrease it and potentially create additional traffic hazards. Third, Island Drive feeds on to Doolittle Drive and over the bridge to Otis and Fernside. How will the busses feed into those traffic lanes and how much congestion will that cause? How much commute time would this plan really save and at what cost to the neighborhood?

We strongly advise that you rethink this plan. Please do not approve this on Tuesday.

Thank you for your attention,

Subject: Bay Farm Island

To City Council,

Please vote against destroying the median on Island Drive to make way for a bus lane. I believe this is to accommodate the Google buses that pick up and drop off employees from the parking lot designated for them as their Park and Ride. The OX bus comes every 20 or 25 minutes only so it doesn't sound that the lane would be to accommodate the public bus during the rush hour. Even if that were so it would only save a few minutes. Island Drive is the entrance to our beautiful Harbor Bay area. Please don't destroy it to save a few minutes commute time.
Please vote NO.

Subject: Bus Lane and the issue

Hi,
I live on Bay Farm(yes I still call it that) and I do NOT support a bus line on this peninsula.

The problem here is not being able to move traffic in general when schools begin and end their days or the bridge goes up too much(New Years boat parade).

So during the school year between 7:30am to 8:30am traffic is usually horrible. When school lets out at different times, not so bad, but when they let out at the same time, we are back to horrible traffic between 2:30pm to 3:00pm. This is what I have observed.

Increasing the bridge lanes or adding another bridge, changing school hours to different times, adding another lane somewhere to increase ways to leave the bottle neck bridge faster. Just some ideas is all.

Thank you,

Heike Ewert

Subject: Removal of median on island drive

Hello:

We are residents on Bay Farm Island and have just heard of the plan to remove the beautiful median on Island drive.

We recently moved from Trinidad, CA, which is a rural, gorgeous area with a 2-lane freeway. We moved after 38 years in this area to assist our son and wife with childcare. Having to navigate the 880 freeway is truly a nightmare but the minute you cross the bridge on Otis it's like emerging into a tropical island-- with the trees, lagoons and medians that are charming to drive through. Please don't remove the charm of this area, which is a welcome refuge from this very populated and busy area.

We are adamantly opposed to this proposal.

Thank you!

I am writing to strongly oppose this ill-conceived plan. I have lived in Alameda since 1955 and on Bay Farm Island since 1975. The median strip on Island Drive is part of our urban island, something we have been proud of since it was created.

The median strip provides not only beauty but the trees provide much more value in their carbon offset than would be gained by saving 3 minutes in commute time taking a bus. We need more trees especially these days. The tree-lined median strip was a great idea and should be left to flourish.

Please do not promote this bad idea any further.

Importance: High

Valued Council Members,

I fail to understand how a proposal for removal of the median along Island Drive between Doolittle and Maitland to be replaced by an express bus lane has gotten so far as to be brought before the City Council (for a vote? for approval?) without BFI residents being made aware of it?

I know most of us value our trees and plants on the median, and live here because of the beauty they bring. I am shocked by this proposal and definitely oppose it, as I know many other neighbors do as well.

I've understood that this is being proposed to save the buses 3 minutes? REALLY? 3 minutes? Sorry— not enough benefit to rip up beauty and life style.

Thank you for looking carefully at this, Diane Foster

Sent: Wednesday, November 1, 10:22 AM
Subject: Harbor Bay Ferry Parking
To: Trish Spencer, Malia Vella, Marilyn Ezzy Ashcraft, Frank Matarrese, Jim Oddie

Dear City Council Members,

I wanted to share my thoughts on the Harbor Bay ferry parking situation. From what I've read, there seems to be a number of solutions proposed to ease the situation that involve:

- 1) Have riders take public transit to the ferry
- 2) Carpool to the ferry
- 3) Have riders park in the Park and Ride on Island Drive then take the bus to the ferry

Each of these solutions is problematic for the reasons outlined below. I also have a couple of potential solutions at the bottom.

1) Public Transit

Riders who do not live on Bay Farm have a challenge when it comes to taking public transportation, and I think we can all get a sense of their challenges since public transport is not aimed at getting people to the ferry.

Even for those of us who live on Bay Farm, AC transit is not a viable alternative. I live in Islandia, which is south of Mecartney Road. For those of us south of Mecartney, the bus does not take us to the ferry. It would

take us about 2 blocks away, to the corner of Mecartney and Auginbaugh. If the schedule did somehow line up, that is still a fairly significant walk for people who do not have much time in the mornings.

Secondly, being responsible for daycare pickup/drop offs makes it almost impossible to take public transit or carpool. AC transit buses do not go to the business park daycares, and it takes too long for people with kids at other places to get there before the school closes. The Harbor Bay Business Park Shuttle could be a viable alternative, but as of right now, it is not set up to take people from the daycares to the ferry in the mornings, or take riders from the ferry to the daycares in the afternoon.

2) Carpooling

Carpooling is also not an option because of the need to have carseats for the kids. Most of the parents I know go directly to pick up their children after getting off the ferry. There is simply not enough time to get a ride back home and then go pick up the kids.

Considering Alameda continues to attract more and more young families, it does not make sense to come up with too many alternatives that do not account for the needs of parents, especially those with children in elementary school or younger.

3) Island Drive Park and Ride

The third thing I've heard people mention is using the park and ride at Island Drive. I'm not sure who suggested it, but this parking lot is already full most days, so there wouldn't be much relief for the ferry riders, and would likely make the problems worse, as other commuters would be forced out.

Potential Solutions

I have two thoughts that may help with the situation based on my perspective.

1) Open the end of Island Drive to foot traffic (only).

As I mentioned, I live in Islandia, which is part of the homeowners association off of Island Drive between Mecartney and the Business Park. Right now, there is a locked gate at the end of Island drive that goes to Kindercare's parking lot. If this were opened up to foot traffic, it could enable some parents to walk their kids to school and then walk to the ferry. I know I would save about 10 minutes if that were opened, as it currently takes me 15 minutes to walk through the neighborhood to Kindercare, and I know some other parents have expressed this would save them time as well. Then I could easily walk my kids to and from school without a stroller (because there is also no room for strollers at Kindercare). While this would likely only work for a small number of people, it seems like a relatively cheap option that could resolve some stress.

2) Create a parking lot between the daycares on North Loop Road

There is an empty lot between Kindercare and Bright Horizons on North Loop Road that could be converted in to a parking lot. Shuttles could operate to and from that "overflow" lot to the ferry. I'm not sure if this land would be much cheaper than the land adjacent to the current ferry parking lot, but this could be an option. Perhaps the business shuttle would be willing to operate a shuttle during commute hours, especially for the 7:30am, 8:30am, and evening ferries. While not ideal for people who drop kids off at elementary school, it would at least resolve some of the stress of finding parking and getting to the ferry in time.

Thank you very much for your time and consideration.

Sincerely,
Maria Piper

Subject: City of Alameda "Transportation Choices Plan" & biking

Hello Ms. Paine,

I've been commuting across the estuary to work in Alameda for twenty years now, and for quite a few years have done so by bike several times week.

From this perspective, I have a couple of comments on Alameda's "Transportation Choices Plan":

+ Improving bridge access from both the Oakland and Alameda sides is critical for safety and for increasing bicycle and pedestrian traffic.

+ Spending money on tunnel access for bikes and pedestrians seems like a very bad idea, both from the health and public safety perspectives. Has anyone determined what percentage of bicyclists would actually commute through a tube?

Also, FWIW, I also hope that there are plans on the Oakland side for bike lanes on Embarcadero. And the repaving/restriping of Clement St in Alameda left a big buffer in the middle of the road between the lanes instead of bike lanes, which doesn't make much sense.

Thanks much,
Eric

Dear Gail and Andrew,

Please find attached our "Alameda - Oakland Aerial Tramway Concept". As discussed during your Planing Board and Transportation Commission hearings in September, my team worked out a first draft proposal to present the City of Alameda with a concept to execute its transportation strategies as outlined in the Draft Transportation Choices Plan, presented in August 2017, in the shortest possible timeframe, 2018/19 and onwards.

Kindly note, we have only considered transportation data and traffic forecasts as provided within your Draft Transportation Choices Plan while analyzing the current and upcoming transportation issues of the City of Alameda and foremost the desire of its residents to be connected to the (Oakland) BART.

The title page of the presentation shows a very similar aerial tramway solution established in City of Coblenz, Germany. Here, you find comparable measurements with respect to the "estuary crossing." Please find also attached below a link to enjoy the London Thames tramway ride, (this is not a professional clip!):

<https://www.youtube.com/watch?v=x5h-nehX3Nc>

Also, I would like to get you my quick one minute clip but would not be able to do so in an e-mail because of its larger size.

Please feel free to reach out to me anytime before the next City Council scheduled on November 7, 2017 if you have any further questions. My contact phone number is +1 925 548 6877.
Thank you for your time and consideration!

Best regards,
Andrea Wuttke, Ph.D.

FOR IMMEDIATE RELEASE**

Contact:

Gail Payne, Transportation Coordinator, City of Alameda
gpayne@alamedaca.gov
(510) 747-6892

City Council to Consider Draft Transportation Choices Plan on November 7

The City is tackling transportation issues with a comprehensive citywide plan to provide more transportation options for Alamedans with the goal of reducing thousands of drive alone trips at the crossings and through Alameda over the next 15 years. All community members are invited to review and comment on the City of Alameda's Draft Transportation Choices Plan, and to discuss the draft plan on Tuesday, November 7 at 7 p.m. at the City Council meeting.

The Draft Plan is located on the City's project webpage: <https://alamedaca.gov/transportation-choices-plan>

The purpose of the Transportation Choices Plan is to help ensure that the City sustains its high quality of life during a time of current and anticipated population and employment growth throughout the Bay Area region. During this 18-month citywide planning effort, the City and the consultant team identified numerous diverse and scalable opportunities for strategic transportation investment and coordination with transit operators to provide Alamedans with enhanced transportation options while reducing congestion, our carbon footprint and air pollution. The community engagement process consisted of community workshops, organizational advisory group meetings, a public opinion survey, a project webpage, web-based community surveys, and commissions, boards and City Council meetings.

The Transportation Choices Plan provides an implementation-focused blueprint for how the City can improve transportation infrastructure and services in Alameda over the next 15 years to achieve the two goals discussed below:

- **Estuary Crossings:** Decrease drive alone trips at estuary crossings, especially in the peak period back to 2010 levels of drive alone trips at the estuary crossings before the economy boomed and congestion increased. By implementing the Plan's proposed projects and programs, it is expected that drive alone trips at estuary crossings will decrease from the expected 2030 baseline of 14,400 drive alone trips in the morning peak hour to 11,900, which is a 17 percent decrease and comparable to 2010 levels of drive alone trips. Staff and the consulting team are recommending this high end estimate as a stretch goal after hearing from community members and the Planning Board and Transportation Commission in September.

- ***Within Alameda:*** Increase the share of walking, bicycling, bus and carpool trips within Alameda. The Plan's projects and programs are expected to increase non-drive alone trips by almost 14 percent from the expected 2030 baseline, an increase from 24,200 non-drive alone trips to 27,500 non-drive alone trips throughout a typical weekday.

The next steps involve implementing the Plan, which already is partially funded through grants and local monies in the two-year budget and the Capital Improvement Program totaling \$61 million. These funded projects mainly include the Cross Alameda Trail, dedicated bus lanes on Appezzato Parkway, Bicycle and Pedestrian Plan updates, Central Avenue safety improvements, Otis Drive traffic calming, a transportation awareness campaign and monitoring/evaluation. Staff will be working on these funded projects and programs, and will be seeking funds with its partner agencies - AC Transit, Water Emergency Transportation Authority (WETA), Caltrans and the Alameda Transportation Management Association (Alameda TMA) - to implement the remaining projects and programs in the Plan. Other on-going City actions include improving access to the ferry terminals, launching a free and improved shuttle service rebranded as the Alameda Loop Shuttle as well as a bike share program, expanding the Alameda TMA, improving parking management and coordinating with key stakeholders on long-term projects.

Supporting Concepts

- **Integrated Transportation Concept**
including pedestrians, bikers and bus passengers
- **Integrated Bus Schedule** with fixed departure intervals
- **Proposed Bus Stop Waiting Area with Ads**

Alameda Aerial Tramway

Learning About Land Use In Real Terms

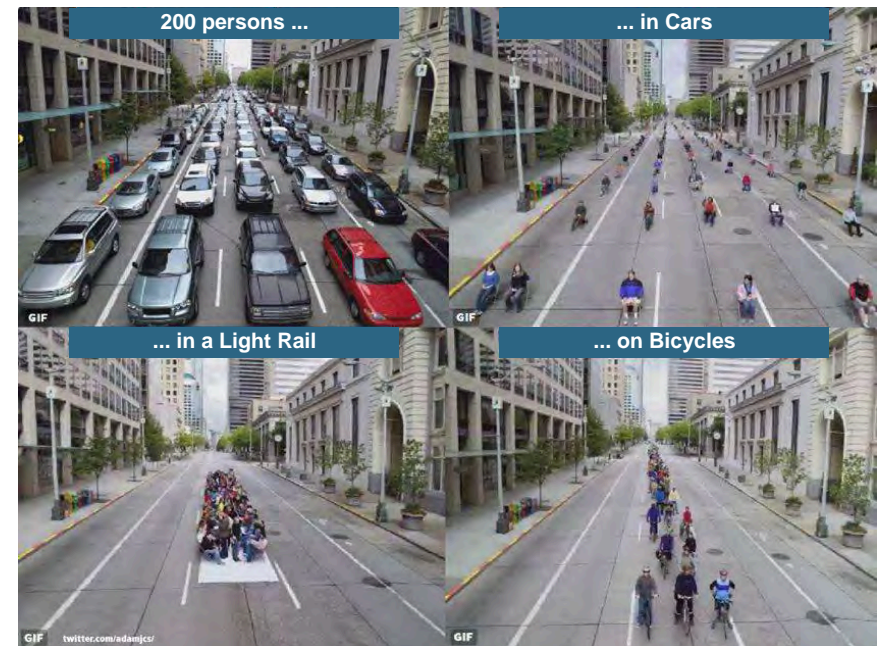

➤ Assumption 1:

The City of Alameda has defined five major strategies which we are fully addressing within our Aerial Tramway and Bus Transportation Proposal.

➤ Assumption 2:

Current road conditions and bridge infrastructure to neighboring cities can only transport 50% of the traffic without any consideration for...

1. Population increase
2. Employment increase

Conclusion:

The highly populated island has reached its limits of land available to serve car rides and connections to other cities in an environmental and financial feasible programs. We are proposing to transfer up to 50% (or more) of the existing car rides to public transportation, including its **masterpiece, the Aerial Tramway**.

Alameda Aerial Tramway

Enabling BART Access as Requested

The Transportation Report of the City proves that a **further expansion of the bus system would not be feasible:**

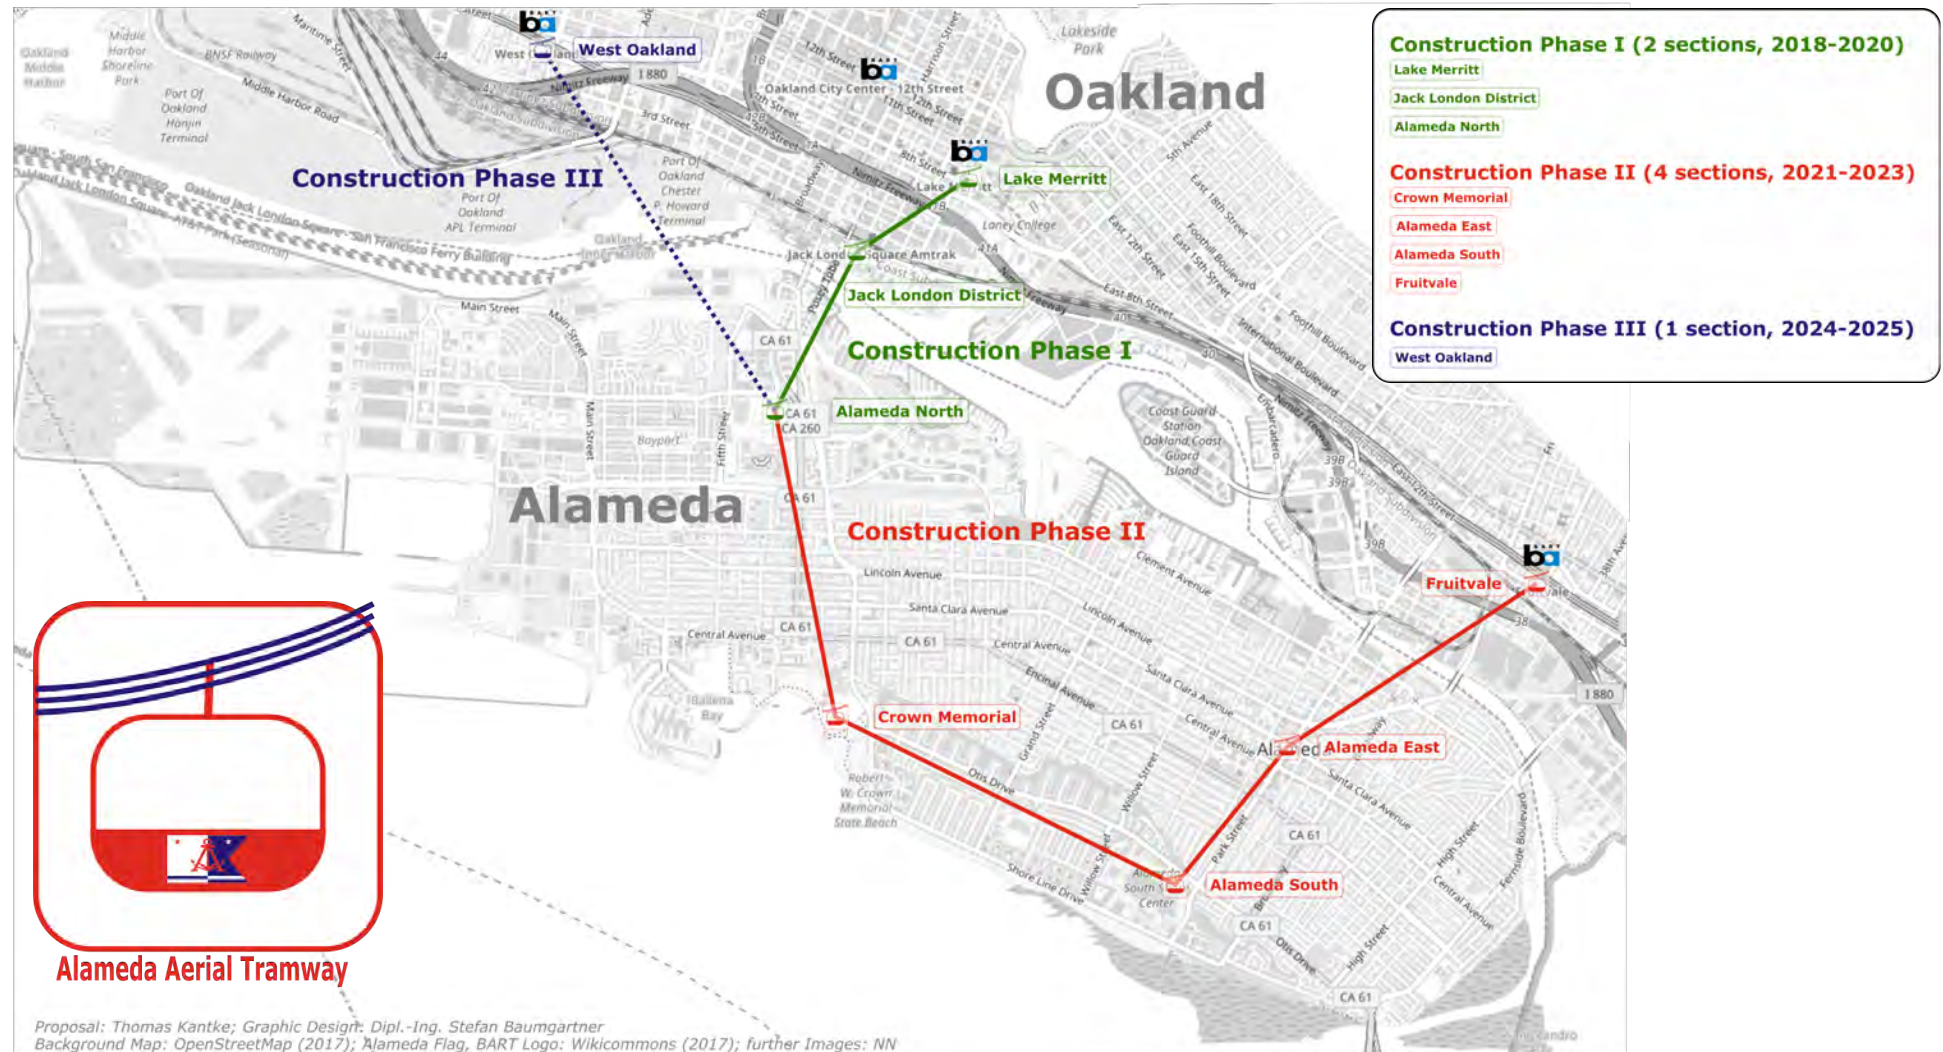

- More than 60% of the respondents prefer a BART access to the island
- Given the traffic volume, a **BART expansion program is not possible** because it would cost up to \$1.5B
- Requested capacities of approximately 5,000 people per hour and direction, we have **two options:**
 1. **Streetcar (Light Rail Technology [LRT])**
 2. **Aerial Tramway (Aerial Ropeway Technology)**
- Capacities match with the given technology per hour of the “3S” (a three ropeway system) Aerial Tramway vehicle

Recommendation:

3S Aerial Tramway between Alameda and Oakland due to land usage, area restrictions and the construction of a required bridge to serve LRT passengers.

Alameda Aerial Tramway

Proposed Route Map and Construction Schedule

Alameda Aerial Tramway

Result Driven Bus Focus

- **Aerial Tramway will cut the trip time between Alameda North and Embarcadero BART (San Francisco) by 18 minutes**
(6 minutes Alameda North – West Oakland + 4 minutes transfer time to BART + 8 minutes West Oakland – Embarcadero BART (San Francisco))
- Alameda Bus System shall enable a minimum 95% of Alameda residents to access a bus stop towards Aerial Tramway within 400 m (1,310 ft.)
- Alameda Bus System departures supporting Aerial Tramway as follows:
 1. 5 am – 6 am: every 20 minutes
 2. 6 am – 10 pm: every 10 minutes
 3. 10 pm – 1:30 am: every 20 minutes
- **Alameda Bus System – The Aerial Tramway Bus Service**
 - Required bus system length: 35 km within 80 stations (including Bay Farm Island)
 - Recommended network: four to five (4–5) lines
 - Recommended number of vehicles in service: 20–24 buses
 - Ticketing:
 1. Single ticket approach (Bus – Aerial Tramway – BART)
 2. Day pass price < two (2) individual tickets
 3. Monthly and annual passes
 4. Annual pass price < nine and a half (9.5) monthly tickets
 - Prioritize bus traffic at traffic lights to save 15% of the total costs since results in 20% fewer buses to maintain the proposed timetable and expand dedicated bus lanes
 - Integrated traffic concept towards extended bike lanes and sidewalks
 - Safer cyclists and pedestrians by reducing the maximum speed from 25 mph to 19 mph
 - Revenue driver: advertisements in bus stop waiting areas
 - Parking fee structure: three dollar (\$3) per hour up to \$25 per day

These recommendations are rough calculations. In order to finalize recommendations precisely further assessments and measurements will be required.

Alameda Aerial Tramway

Executive Summary

The City of Alameda has defined the following Transportation Targets:

1. Expansion of The Environmental Transportation Concept Including Public Transit Vehicles as Much as Bikers And Pedestrians
2. Increasing The Degree of Car Passenger Per Car
3. More Low-Cost Transit Tickets
4. Improving Safety For Cyclists And Pedestrians
5. Improving Overall Mobility Concepts Within Inside And Outside Alameda Traffic

Our Alameda - Oakland Aerial Tramway concept is compatible with the requirements listed above.

Alameda Aerial Tramway

CONCLUSION

Our transportation recommendations enable the City of Alameda to **reduce total car trips to 30,000 (or less) per day**, while, simultaneously the **Aerial Tramway carries about 30,000 passengers per day**.

Additionally, the number of **bus passengers will increase to 20,000 per day**.

The best way to predict your future is to create it.

ALAMEDA TRANSPORTATION CHOICES COALITION

October 28, 2017

Members of the Alameda City Council,

We are writing to you as community organizations and leaders who are actively engaged in transportation and environmental work in our City. The work of Alameda's transportation and climate action staff has repeatedly shown that we will not be able to meet our transportation and climate goals without doing something that will directly reduce the number of vehicles on our roadways. The newly revised goals within the transportation choices plan sets us on the right path, but we need to do more.

We envision an Alameda where choosing how to travel throughout our city is not a stressful activity, where we have transportation options that meet our varying, individual needs. In "Future Alameda", riding a bicycle across town is safe, taking transit is convenient and relaxing, and driving becomes less frustrating. Success with the Transportation Choices plan today will literally lay the groundwork for creating a community that maintains a high quality of life centered around accessible streets with easy transportation choices for commuters and in-city travelers.

To achieve this we are asking you, the City Council, to make a big commitment to our City, one that is not part of the current plan. Think about what we want, what would make life better for thousands and thousands of people: it isn't more traffic on our residential streets, it's less; it is the ability for people to access regional transportation without feeling the need to drive; it is the abundant feeling that our streets are safe to access by foot, by wheelchair, by bike, by skateboard, by scooter.

But this will not be possible without a large commitment from the City and the community. We need to take the first steps and go big. To this end, we ask you to move this plan forward with the following two additions:

1. Include a new walking and biking bridge across the estuary and a west-end lifeline, transit-only tube. These additions add capacity to our transportation system, provide mobility options to many aspiring bicycle and walking commuters to the inner-east bay, and ensure we have emergency ingress and egress after a large seismic event.

Achieving this goal will take years, but 11/7 is the day to start that journey. We ask you to direct staff to begin the next step in the process by developing engineering drawings that can start the discussion on funding. Until this step is complete, we cannot move forward. Once costs are known, staff can lead community discussions on funding opportunities, looking at potential funds in Measure BB, RM3, tolling for non-HOV, state and federal funds etc.

2. Add a transit planning project that seeks to meet the goals of the transit concept outlined by Alameda Business Leaders. A final product of which will be a more concise transit planning document that revises the proposed routes in the TCP and has been vetted by transit professionals and includes future ridership projections, cost and routing information. The goals include:
 - Frequent service, with 10-minute headways during peak hours; no more than 15-minute headways during most business hours, and 30-minute headways during off-peak hours;

ALAMEDA TRANSPORTATION CHOICES COALITION

- Free-to-the-end-user, as a system without fare boxes removes a significant barrier to ridership and encourages greater use;
- Routes that serve schools, parks, senior facilities, business districts and are within three blocks or less of most Alameda residences;
- Clean fuel vehicles powered by non-carbon and renewable power, with accommodations for bicycles; and
- Connections to regional transportation hubs – BART and the ferry terminals – to not only ease congestion at our existing choke points, but also encourage ridership by visitors and those who commute to work to our island.

The addition of these two priority projects will complement each other and ensure that future generations will laud Alamedans in 2017 with accolades for thinking of the future and not being constrained by only what can be implemented in the next 5-10 years.

The TCP provides a good, short-term, financially constrained framework. While we are sure that groups and people will have proposals for tweaks to the proposals, we encourage you to address them and approve the document on 11/7. The future starts now, it's time to plan for an Alameda with safer streets, even more livable neighborhoods and a multitude of transportation options.

We ask you to join us in saying "Yes!" to Alameda's transportation future with these two additions to the proposed plan.

Respectfully,

Bike Walk Alameda: Brian McGuire, President

Community Action for a Sustainable Alameda (CASA): Pat Potter, Transportation Chair

David Burton, CASA President, Planning Board Member

John Knox White, Planning Board member

Heather Little, Transportation advocate

October 19, 2017

Jennifer Ott, Director of Base Reuse and Transportation Planning
Alameda City Hall
2263 Santa Clara Avenue
Alameda, CA 94501

Re: City of Alameda's Transportation Choices Plan

Dear Ms. Ott:

The Alameda Transportation Management Association (ATMA) would like to express support for the City of Alameda's Transportation Choices Plan. ATMA Board members participated on the Advisory Committee for this planning effort, and also met with City staff individually to ensure that the recommended projects and programs work for ATMA. We wholeheartedly concur with the purpose of the Plan, to provide more transportation options for Alamedans with the goal of reducing drive alone trips at the crossings and through Alameda over the next 15 years. The ATMA will work in concert with the City to achieve the Plan's improvements that are grouped into the following priority strategies:

Estuary Crossing Goals

1) Expand transit, bicycling and walking to/from Oakland and BART: Because Oakland and Alameda are close, the travel time to/from Oakland by transit, walking and bicycling can be short enough to encourage people to shift modes.

2) Expand transit and carpools to/from San Francisco: The high level of transit service to/from San Francisco is an amenity that draws many people to live, work and play in Alameda. Investing in improved access to ferry terminals and BART stations and improved speed and reliability for AC Transit Transbay service will result in ridership growth and will capture new residents and employees as riders.

Within Alameda Goals

3) Expand transit and achieve a low-cost rider experience within Alameda: Improving bus service and providing bus pass discounts contribute to a higher quality of life for people who live, work, learn and visit Alameda, and improves mobility for those who do not have a car or may not have the ability to drive such as youth, seniors and people with disabilities.

4) Improve bicycle and pedestrian safety within Alameda: This priority strategy improves safety by closing gaps in bikeways and walkways and facilitating travel for people with disabilities.

5) Improve mobility for all modes within Alameda: This strategy relates to issues that impact mobility for more than one mode within Alameda, including traffic calming, safe routes to school, transportation technology and parking management.

ATMA looks forward to partnering with the City to implement the Plan!

Sincerely,

Michael S. O'Hara
Chairman
Alameda Transportation Management Association

Michelle, please forward this to the City Council for tomorrow night's meeting. Thank you. Linda

October 16, 2017

Honorable Mayor Spencer, Vice-Mayor Vella, and Councilmembers Ashcraft,
Matarrese and Oddie:

I am writing on behalf of the West Alameda Business Association Board of Directors to lend our support to the Greater Alameda Business Association recommendations for the Draft Transportation Choices Plan to create an Alameda Intracity Shuttle in conjunction with, or in lieu of, the High Priority 'Crosstown Express Bus Service' noted in Projects & Programs Item 18. Specifically:

- Frequent service, with 10-minute headways during peak hours: no more than 15-minute headways during most business hours, and 30-minute headways during off-peak hours.
- Free service to the end user: a system without fare boxes -removing significant barriers to ridership and encouraging greater use.
- Routes that serve schools, parks, senior facilities, business districts large and small, and are within three blocks or less of most Alameda residences.

- Clean fuel vehicles with accommodations for bicycles.
- Connections to regional transportation hubs – BART and the ferry terminals – to not only ease congestion at our existing choke points, but also encourage ridership by visitors and those who commute to work to our island.

Thank you for your consideration of this letter of support.

Linda Asbury
Executive Director
West Alameda Business Association
linda@westalamedabusiness.com

Esteemed Council Members,

As you evaluate the Draft Transportation Choices Plan, please include the GABA proposed Intracity Alameda Shuttle and its Routes into Item 18 of the noted Projects & Programs.

Surveyed residents expressed a desire for this type of transportation service.

With expected housing and business growth on our Island City an Alameda Intracity Shuttle should be an element of our transportation plan.

Thank you for your support of this omitted component to our Transportation Choices Plan!

Sincerely,

Alameda Resident and Voter

Esteemed Council Members,

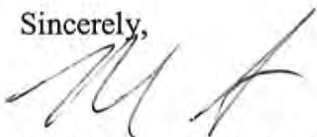

As you evaluate the Draft Transportation Choices Plan, please include the GABA proposed Intracity Alameda Shuttle and its Routes into Item 18 of the noted Projects & Programs.

Surveyed residents expressed a desire for this type of transportation service.

With expected housing and business growth on our Island City an Alameda Intracity Shuttle should be an element of our transportation plan.

Thank you for your support of this omitted component to our Transportation Choices Plan!

Sincerely,

Alameda Resident and Voter

October 2, 2017

Honorable Mayor Spence, Vice-Mayor Vella, and Councilmembers
Ashcraft, Matarrese, and Oddie,

As you work towards a decision on the upcoming *Draft Transportation Choices Plan* we hope that you will take into consideration the Alameda Intracity Shuttle options and services in conjunction with, or in lieu of, the High Priority 'Crosstown Express Bus Service' noted in Projects and Programs Item 18.

The Downtown Alameda Business Association Board of Directors believes that the IntraCity Shuttle plan is an important component of Alameda's multi-modal transportation solution.

Thank you for all you do for our community,

Alameda Downtown Business Association
Board of Directors

Esteemed Council Members,

As you evaluate the Draft Transportation Choices Plan, please include the GABA proposed Intracity Alameda Shuttle and its Routes into Item 18 of the noted Projects & Programs. Surveyed residents expressed a desire for this type of transportation service.

With expected housing and business growth on our Island City an Alameda Intracity Shuttle should be an element of our transportation plan.

Thank you for your support of this omitted component to our Transportation Choices Plan!

Sincerely,

Alameda Resident and Voter

Esteemed Council Members,

As you evaluate the Draft Transportation Choices Plan, please include the GABA proposed Intracity Alameda Shuttle and its Routes into Item 18 of the noted Projects & Programs. Surveyed residents expressed a desire for this type of transportation service.

With expected housing and business growth on our Island City an Alameda Intracity Shuttle should be an element of our transportation plan.

Thank you for your support of this omitted component to our Transportation Choices Plan!

Sincerely,

Alameda Resident and Voter
