### *Repairing Alameda's Aging Infrastructure*

The City of Alameda is engaging the community around our aging infrastructure needs. Below are some of the key infrastructure priorities identified by the public. Please give us your feedback by ranking the below priorities 1-11 with "1" being the most important. We will review all comments and responses as we develop our plan to address these needs.

Rank 1-11 1 = most important 11 = least important	Key Infrastructure Priorities
	Maintaining/repairing public storm drains to prevent flooding/keep pollution out of the Bay
	Maintaining City streets
	Repairing potholes and sidewalks
	Improving traffic safety/flow
	Ensuring community disaster preparedness
	Addressing climate change impacts, including sea level rise
	Maintaining the condition of neighborhood parks
	Upgrading utilities and infrastructure at Alameda Point, ensuring safe, clean drinking water
	Restoring Carnegie Library, Veterans, and other public buildings to current safety standards and public use
	Providing affordable housing options
	Protect and maintain street trees
