

Draft City of Alameda Essential Services Measure

To maintain Alameda's financial stability and provide funding for a variety of services, including police response to crimes/burglaries; 911 emergency medical/fire response; addressing traffic congestion; improving pedestrian/bicyclist safety; maintaining parks, storm drains, senior, youth, homeless programs; and other City services, shall the City of Alameda enact a half-cent sales tax until ended by voters, providing about \$5 million annually in locally controlled revenues, requiring independent audits and public spending review?
