Subject: timeline of McKay

Dear Mayor, Councilmembers, and City Attorney,

I published the following timeline on the federal property on McKay Avenue. You may find it helpful.

2006 – EBRPD became aware the U.S. General Services Administration was consolidating operations on McKay Avenue adjacent to Crab Cove and might sell **a portion** of its seven-acre property.

2006-2007 – EBRPD tried to work with GSA to acquire the parcel at no cost through a public benefit conveyance or at the appraised fair market value, pointing to environmental impacts on the state beach and the limited street easement rights available to private developers.

2008 – GSA announced its plans to sell a 3.89-acre portion of its property through a competitive auction.

July 2008 – EBRPD then included a line item for “acquisition of surplus federal property to complete Crown Beach” as part of ballot Measure WW.

August 2008 – City council endorsed Measure WW, which voters enacted in November 2008.
