**Subject:** June 25th 7A Alameda Landing Waterfront

Dear Planning Board members,

In looking at the design images for the Alameda Landing Waterfront, it appears that the developer is proposing to build housing within the BCDC 100' setback from the shoreline. This land is public land that belongs to the people of Alameda. Allowing a private party to build housing on the 100' setback is not correct and cheats our citizens out of the waterfront they own and deserve to have preserved for them.

Respectfully

Dorothy Freeman
