Application Information**Applicant:** City of Alameda**Cycle Name:** Rubberized Pavement Grant Program**Cycle Code:** TRP12**Grant ID:** 22893**Application Due Date:** 10/3/2019**Secondary Due Date:** 10/31/2019**Grant Funds Requested:** \$175,000.00**Matching Funds:** \$0.00 (if applicable)**Awarded Funds:** \$0.00

Project Summary: If awarded, the City of Alameda will use these grant funds to supplement the Pavement Management Program's resurfacing project for 2020 (Phase 39). The City has tentatively selected 175,000 SY of streets to treat with rubberized cape seal, which is a rubberized chip seal finished with a slurry seal on top. The City funding for this project was cut from \$3.5M to \$2.6M and the resurfacing project also includes other roadway treatments, such as asphalt concrete overlay, slurry seal, and crack seal.

Staff will ultimately have to reduce the scope of the project. However, award of these grant funds will help solidify/prioritize the 175,000 SY of rubberized cape/chip seal treatment over the other surface treatments. This will in turn, allow the City to use more recycled material than originally planned.
