Dear Mayor and City Council,

I'd like to offer my full support of the City entering into a lease agreement for Carnegie Innovation Hall. Time is long overdue to restore Alameda's Carnegie Library. This agreement will benefit the city both economically and culturally by combining technology, theater, arts, and innovation in a place where our community is invited to dream, learn, design, and grow.

After months negotiating a lease agreement, and with no other offers available to the City for restoring this historic monument, the Council should do the right thing and swiftly move forward a lease agreement so that the non profit can secure funds and invest private dollars in renovating the library.

Thank you,
Jennifer Tacheff

Dear Mayor and City Council,

As I am unable to attend this evening's City Council meeting, I would like to offer my full support of the City entering into a lease agreement for Carnegie Innovation Hall. Time is long overdue to restore Alameda's Carnegie Library. This agreement will benefit the city both economically and culturally by combining technology, theater, arts, and innovation in a place where our community is invited to dream, learn, design, and grow.

After months negotiating a lease agreement, and with no other offers available to the City for restoring this historic monument, the Council should do the right thing and swiftly move forward a lease agreement so that the non profit can secure funds and invest private dollars in renovating the library.

This is such a unique opportunity. The CIH will be a lasting blessing for the Alameda community. I encourage you to please approve this special & worthwhile project.

Thank you,
Randy Post

Lara:

Can this be added as correspondence/supplement to Carnegie agenda. I will forward one other.

Eric

Please add a note to the staff report that states:

“Carnegie Innovation Hall agrees that the construction work will proceed in a safe, orderly and expeditious manner and through the use of skilled workers to ensure that the work is done in a high quality manner. They also agree to use licensed contractors paying prevailing wage that will be subcontracting work to Union trades. However, we are not able to sign the lease that requires a written agreement in advance and requires a second round of negotiation and a return to city council for approval.”

Thank you,

Michael
