Mayor Ezzy Ashcraft & City Council:

1. On the CDBG agenda item, I received questions regarding the reduction in Non-Housing Public Services funding. The reduction in funding recommendation is due to the fact that only 15% of Funds from CDBG allocation and loan payments are eligible for this use. Due to loans being paid off last year, there is a reduction in funds from this use, resulting in the reduced funds in the recommended Action Plan.
2. On the Budget, there are two agenda items. The presentation on the Budget agenda item and Capital agenda item will both be in the 10 minute presentation time limit. Department Directors will be present to answer questions in addition to the presentation from Budget and Finance staff on the Budget.

Thanks
